### **COUNTY ADMINISTRATOR**

220 NORTH MAIN STREET, P.O. BOX 8645 ANN ARBOR, MICHIGAN 48107-8645 (734) 222-6850 FAX (734) 222-6715 http://www.ewashtenaw.org

March 15, 2007

### To the Board of Commissioners and the Citizens of Washtenaw County:

The Comprehensive Annual Financial Report (CAFR) of Washtenaw County for the year ended December 31, 2006, is submitted herewith. It was prepared by staff in the Finance Department with significant assistance from the accounting personnel in the Treasurer's Office, Drain Commissioner's Office, Public Works, Road Commission, Community Support and Treatment Services, Public Health, and other County departments. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County.

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2006.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatement.

Rehmann Robson, Certified Public Accountants, have issued an unqualified ("clean") opinion on Washtenaw County's financial statements for the year ended December 31, 2006. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### PROFILE OF THE GOVERNMENT

Washtenaw County, incorporated in 1827, is located in the southeast region of Michigan's Lower Peninsula, approximately 40 miles west of Detroit. The County encompasses 28 cities, villages and townships, settings range from urban to rural and small town to suburban. It is the sixth largest county in the State of Michigan, with an estimated 2006 population of 347,111. Sixty-five percent of the County's population resides in four main areas. Its major cities are Ann Arbor and Ypsilanti, with estimated populations of 113,237 and 20,919, respectively. The County's two largest townships are Ypsilanti and Pittsfield, with estimated populations of 53,017 and 34,530, respectively. It covers an area of approximately 710 square miles. The County seat is located in the City of Ann Arbor. Washtenaw County is empowered to levy a property tax, the primary source of funding, on both real and personal property located within its boundaries.

The governmental structure of Washtenaw County is based upon the State Constitution and the general laws of the State of Michigan. The County's legislative body, and its administrative body for many functions, is the County Board of Commissioners. The Board consists of eleven commissioners elected by direct vote from single-member districts every two years. In addition to the Board of Commissioners, there are fifteen elected officials serving the County in judicial, administrative, or staff officer roles. An organization chart depicting the County structure is shown on the page following this letter.

Washtenaw County provides a full range of services in the following community of interest areas: public safety and justice, emergency preparedness and response, planning and environment, housing and homelessness, health, children's well-being, civic infrastructure, support services, and other customer specific services (for the blind and physically disabled and veterans). The County is responsible for the management and financing of these operations. Other services are provided through legally separate entities. The Washtenaw County Building Authority, although legally separate, functions as a department because its sole purpose is to finance and construct the County's public buildings, and therefore has been included as an integral part of the County's financial statements. Washtenaw County is also financially accountable for five legally separate component units: Department of Public Works Projects, Drain Commissioner, Hazardous Material Response Team Authority, Brownfield Redevelopment Authority and Road Commission, all of which are reported separately within the County's financial statements. Additional information on all of these legally separate entities can be found in the notes to the financial statements (See Note I.A.).

The Board of Commissioners is required to adopt a final operating budget prior to the beginning of each fiscal year. This annual budget serves as the foundation for Washtenaw County's financial planning and control. The budget is approved and budgetary control is exercised at the department level. Expenditures may not exceed budgeted appropriations at the department level. Departments are authorized to make budget adjustments up to \$10,000 within established categories of their budget. The County Administrator is authorized to make budget adjustments within and between categories of budgets up to \$100,000 or 10% of the budget, whichever is less. Budget adjustments greater than this must be approved by the Board of Commissioners.

### **Local Economy**

Washtenaw County's vibrant economy is centered on seven business sectors. Major industries located within the government's boundaries or in close proximity include alternative energies, automotive research and development, engineering and production, homeland security and defense, imaging and vision, information technologies, life sciences, and printing and online information. In addition, many high quality educational institutions, most notably the University of Michigan and Eastern Michigan University, and healthcare facilities are located within our borders. The County also is a significant economic presence thanks to the vast array of services provided by more than 1,200 employees. The innovative-based economy in the County is thriving.

Because of its location in a region with a varied economic base, unemployment has been consistently below the state and national averages, 6.8 and 4.6 percent respectively. During the first half of the last decade, the unemployment rate decreased from 2.0 percent (1997) to a decade low of 1.6 percent (1999). Although Washtenaw County has one of the healthiest economies in the state, manufacturing layoffs and job losses in trade, transportation, and utilities affected the local unemployment rate. Since 2000, the unemployment rate steadily rose to a decade high and current rate of 4.4 percent (2006).

Unemployment is expected to increase above the national average in the wake of Pfizer Global Research & Development's decision to close its Ann Arbor operations and eliminate 2,100 positions. As the County realizes the full impact of Pfizer's departure, the trickle-down effect could result in 2,000 to 4,000 additional job eliminations for contract workers, temporary employees and lost business in the surrounding retail industries.

Even though the loss of Pfizer will be felt on multiple economic fronts and uncertainty of the future looms, unemployment is expected to remain at or below the state average for four reasons. First, state and local officials and business leaders vow for an "aggressive strategy" to make up for the impending loss and to keep the displaced workers in the County. Many believe that the opportunity has been provided to speed up the life-science industry in the area. Second, business growth continues to increase with new investments by General Motors for equipment replacement and renovations, Google for an office building to house over 1,000 employees, Hyundai for a research center and Toyota for a technology campus. Third, it is estimated that the labor force in the local region will continue increasing 3 percent annually for each of the next several years due to continued population growth and new entrants, high school and college graduates, into the work force. Finally, above average employment growth rates in the region are projected among health care, professional, construction and repair, management, sales, and service occupations. Jobs in the County are expected to increase by 39,190 or 14.8 percent by 2012.

Washtenaw County has maintained strong population growth over the past two decades. This growth is expected to continue in the foreseeable future. Our 2000 Census population was 322,770. The estimated 2030 population is 448,020. Over 48% of our residents 25 years and older have completed four or more years of college. The median household income of our residents is over 17% higher than that of the State of Michigan and over 25% higher than the United States as a whole. Personal income figures for our citizens have risen significantly in recent years, over 38% since 1995. This indicates a healthy economy and a higher standard of living for our residents.

Washtenaw County's total equalized value of taxable property has more than doubled over the last ten years. The equalized value of taxable property has realized an average 8.8% increase in growth per year for the past five consecutive years. The County remains in good financial condition, as is demonstrated by the financial statements and schedules included in this report. The County's total equalized value of taxable property for 2006 was approximately \$18.5 billion, an increase over the prior year of \$1.0 billion, or roughly 5.8%. The economic base of the County is continuing to increase.

During the past six years, the government's expenses related to judicial, general government, public safety, health and social services have increased in amount, but have consistently remained within two percent of their category of total expenses (a six-year average of 13.6 percent, 10.5 percent, 27.4 percent, 22.1 percent and 16.0 percent, respectively). Judicial expenses increased for trial court operations and activities. General government expenses increased for facilities management because of higher utility costs, and risk management because of legal counsel and attorney fees for pending lawsuits. In the case of public safety, much of the increase reflects increased staffing levels and additional medical services, food and supplies being needed due to the elevated number of inmates. Increased costs for health and social services are products of continuing quality services and programs for at risk populations.

The growth in parks and recreations expenses over the past six years reflects an increase in recreational activities and programs, as well as major land acquisitions under the Natural Areas Preservation program and development of the 35-mile Border-to-Border Trail, a non-motorized multi-use trail connecting to Livingston County in the north and Wayne County in the southeast.

During the past six years, the government's expenses related to public works have decreased not only in amount, but also as a percentage of total expenses (a six-year decrease of 25 percent). This decrease is due to the discontinuation of the solid waste revenue sharing program.

During the same six-year period, charges for services increased in amount annually through 2005 and dropped 15 percent during 2006 from the previous year, but have continued to decrease as a percentage of total revenue (a six-year decrease of 6.4 percent). The reason for this decline is the relative increase in expenses related to services that are not supported by fees and charges (e.g., public safety); thus, as taxes have increased to support these services, so has the proportion of total revenue generated by taxes.

Operating grants and contributions increased in amount (a six-year increase of 43.9 percent), but has remained relatively stable, of total revenues at 31.6 percent. Operating grants and contributions revenues increased as grant awards provided additional funding of new and existing programs in the areas of health, social services, general government, and public safety activities.

Property tax revenue not only increased in amount, 88.9 percent from six years ago, but also as the percentage of total revenue (a six year average of 42.9 percent), almost half of the revenue collected during 2006. Property taxes increased by approximately \$7.4 million (8.4 percent over the prior year). This increase is the product of increased taxable values and residential growth. An increase of \$19.5 million or 37.4 percent that occurred over prior years was a result of accelerated revenue recognition pursuant to Public Act 357 of 2004, which serves as a substitute for state revenue sharing payments.

During the past six years, the government's revenues related to capital grants and contributions, and grants and contributions not restricted to specific programs have decreased not only in amount, but also as a percentage of total revenues (a six-year decrease of 93.7 percent and 95.0 percent, respectively). Decreases in both these revenue categories reflect programs that have ended, received funding reductions and/or funding has been discontinued.

### **Long-Term Financial Planning**

Unreserved, undesignated fund balance in the general fund (8.5 percent of total general fund expenditures and transfers out) falls within policy guidelines set by the Board of Commissioners for budgetary and planning purposes. The Board has continued its commitment to plan future budgets to meet the goal of a reserve for subsequent years representing 8.0% of General Fund expenditures and transfers out.

The Board of Commissioners has committed to ensure the long-term fiscal stability of the County. The County has operated very deliberately over the past several years, making sound financial decisions to keep from having to react to a crisis situation. However, the 2006/07 adopted budget includes the use of certain non-General Fund reserves and the extra property tax revenue realized from the shift from a December to July tax levy as a means to stabilize the organization. The real challenge will be in 2008.

The five year projections demonstrate a good financial outlook, but assume an expenditure reduction by 2008. The reduction will be addressed through four identified cost saving measures that must be researched and acted upon prior to the adoption of the 2008/09 budget, including: additional police services revenue by moving to an incremental cost model; savings in salary, medical and pension costs through the identification of cost-containment strategies and negotiated labor contracts; re-evaluating the commitment to the human services departments for personnel costs; and determining if the policy to freeze/waive the cost allocation plan for human services and county grants can continue.

The County continues to struggle with the obligation to maintain our current infrastructure while striving to advance systems integration, which typically involved additions and modifications to existing infrastructure. The primary struggle revolves around the prioritization of funding for projects within fiscal constraints. There simply is not enough money to do everything that is needed, so difficult decisions must be made. Ongoing maintenance and operating costs must be provided for current business to continue. The Board of Commissioners has continued with the appropriations to the County's capital budgets, including 1/8<sup>th</sup> mill for building repair and maintenance.

The County has advanced significantly in its efforts to evaluate its operations, focus on who does what best, and identify its customer needs. These same concepts will carry Washtenaw County through these tough economic times as they continue into the future. The primary focus will be continued systems integration with Communities of Interests coupled with internal cost saving measures.

### **Relevant Financial Policies**

In October 2004, the State legislature passed legislation that shifted the timing of property tax payments to create a revenue stream that, for the next seven years or so, will offset the reduction in state revenue sharing. The measure gradually moves up property tax collections from the winter to the summer over three years, beginning July, 2005. Counties annually transfer from this pool the exact amount of funding that would have been available through state revenue sharing. Each year the State publishes the allowable spending amount that can be transferred from the reserve fund. The allowable spending amount is calculated using the growth in the U.S. Consumer Price Index from the State's 2004 and 2005 fiscal years. The inflation rate used for fiscal year 2006 was 3.3%.

### **Major Initiatives**

There are many internal and external variables that limit the County's financial outlook. These constraints impact the County's ability to fund requests for enhancements or increases in resource allocations. Several factors have made the overall cost of doing business higher than in the past. The major influences on the fiscal environment of the County are:

- ☐ Outside Agency Funding— The County allocates a set of funds to community organizations. Outside agencies are defined as non-profit entities outside the organization with which the County contracts for the provision of services. Over 1.5 million of General Fund dollars fund outside agencies through Board of Commissioner priorities. Contracts for provision of services are executed with each agency, and each agency's performance is overseen by a County department.
- □ Police Services Methodology Review The conversation about the appropriate way in which to offer police services have been ongoing for many years. The key issue is who should pay for police services; the new methodology provides for the gradual elimination of the subsidy the County has traditionally provided to contracting entities. The Board of Commissioners decided to phase in the new methodology in order to accommodate the needs of local contracting entities. During 2006, contracting costs were limited to the scheduled 6% increase. In 2007, the contracting entities will assume overtime costs associated with police services. Finally, in 2008/09, a completely different methodology will be implemented (the "incremental cost model"), in which the local units will be responsible for paying the full cost of their police services.
- □ Public Safety & Justice Initiative This initiative began during 2004 with the establishment of the Criminal Justice Collaborative Council (CJCC) and the development of a comprehensive strategic plan for ending jail overcrowding and enhancing the public safety and justice system. On August 3, 2005, the Board of Commissioners adopted a plan that would expand jail beds, upgrade support areas within the jail, provide for a new district court and allow for alternative sanctions through a probation residential center and mental health diversion program. These immediate public safety and justice concerns have been incorporated in the space plan as presented below.

□ Strategic Space Plan – The purpose of this plan is to establish long-term infrastructure discussion and a framework to assist in guiding those decisions and to identify urgent or intermediate needs and provide options for addressing them. Various efforts were used to identify needs including expert opinion, stakeholder input, and the public perspective. The result of these efforts is that eleven major infrastructure needs were identified. Major infrastructure needs include: expansion of jail beds, jail infrastructure upgrades, expansion of support systems in the jail due to increased capacity, jail diversion options, 14A-1 District Court, renovation of downtown Ann Arbor Courthouse, construction of a new facility for the Juvenile Division of Family Court, reconfiguration of 555 Towner, relocation of Employment Training and Community Services, construction of a secure data center and upgrade of the County's network connectivity. Each of the above will be addressed within the context of the 20 year space plan. Planning principles and tying space planning with the biennial planning process will ensure that projects are aligned with Board of Commissioner priorities and other infrastructure projects.

In addition to departmental operations, each county service is dependent on the infrastructure of space, technology and professional development. Without a strong plan in each of these areas, business will not be successful. Washtenaw County has continually progressed in its approach to providing infrastructure in an integrated manner. As with all government agencies, Washtenaw County faces the challenge of ever increasing needs and opportunities with limited resources. It is essential that these resources be used in a wise manner to serve citizens. The provision of infrastructure resources revolves around one coordinated plan with three priorities:

- Ensuring the stability of existing infrastructure There is a temptation to focus resources on expansion and new capabilities at the expense of maintaining what we already have. It is crucial that the County ensures that the foundation that has been built remains solid and current with the times.
- **Business continuity** The events of the last few years have driven home the message that we live in a fundamentally different world, today. Our reliance on technology makes it critical that those capabilities are not interrupted. The County has made great advances in making plans to ensure the critical business operations are not interrupted in the case of a disaster.
- Systems integration By looking at core businesses and integrating structures and processes where possible, the County can reduce redundancies and expand the capacity of the system as a whole. The progress made in systems integration has been dramatic over the last two years with major initiatives in Support Services, Planning & Environment, and Health. A primary purpose of infrastructure is to support the transitions from individual departments to integrated service delivery systems.

Finally, an infrastructure plan with technology, capital improvement, and professional development components provide strategies for employees, programs and departments in support of the organizational goals of Washtenaw County. Therefore, the governance of our infrastructure is critical in ensuring that our delivery systems are efficient and effective and that our employees have what they need to provide world class services.

### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Washtenaw County, Michigan for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2005. This was the 16th consecutive year that the County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the County must publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition to the Certificate of Achievement, the County also received the GFOA's Distinguished Budget Presentation Award for its budget for the biennium period beginning January 1, 2006. In order to qualify for the Distinguished Budget Presentation Award, the County's budget document was judged as a policy document, a financial plan, an operations guide, and a communication device.

The preparation of this report on a timely basis was made possible by the dedicated service of Finance Department accounting staff and the accounting personnel from the Treasurer's Office, Drain Commissioner's Office, Public Works, Road Commission, Community Support and Treatment Services, Public Health and other County departments, as well as advice from Rehmann Robson. I wish to express my appreciation and acknowledge those who assisted and contributed to the preparation of this report:

Dan AckermanFlorice BoelterJanet GilkeyRoberta AllenSue BosKirsten OsbornTerry BallantynePeter CollinsonPat WillisKelly BelknapDick EckoffXiaohong Wu

Don Bilbey Tina Gavalier

Credit also must be given to the Board of Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of Washtenaw County's finances.

Sincerely,

Robert E. Guenzel

County Administrator/Controller

### INDEPENDENT AUDITORS' REPORT

March 15, 2007

To the Board of Commissioners of Washtenaw County Ann Arbor, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of *WASHTENAW COUNTY*, *MICHIGAN* as of and for the year ended December 31, 2006, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Washtenaw County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Employment Training and Community Services Fund, which represents 4.2% of the assets and 18.9% of the revenues of the aggregate remaining fund information and 0.2% of the assets and 4.2% of the revenues of the governmental activities. Also, we did not audit the financial statements of the Washtenaw County Road Commission, which represents 71.3% of the assets and 84.1% of the revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports were furnished to us, and our opinion, insofar as it relates to the amounts included for the Employment Training and Community Services Fund and Washtenaw County Road Commission, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of *Washtenaw County, Michigan*, as of December 31, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the General Fund and Major Special Revenue Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2007 on our consideration of *Washtenaw County*, *Michigan's* internal controls over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3-16 and the employees' retirement system information on pages 82 and 83 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Washtenaw County's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based upon our audit and the reports of other auditors, are fairly presented, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Rehmann Lobson

### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Washtenaw County, Michigan we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i–viii of this report, and the accompanying basic financial statements.

### **Financial Highlights**

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$185,428,839 (*net assets*). Of this amount, \$88,273,601 (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$21,483,268 during 2006. Approximately half of this increase is attributable to the main program revenue area of operating grants and contributions and the general revenue area of property taxes.
- As of the close of the current fiscal year, the County's governmental funds (this includes the general, special revenue, debt service and capital projects funds) reported combined ending fund balances of 115,048,596, an increase of \$37,358,830 in comparison with the prior year. Ninety-two percent of the ending fund balances are subject to the underlying limitations applicable to the particular special revenue, debt service and capital project funds. Approximately 8 percent of this total amount, \$8,352,216, is available for spending at the government's discretion only (general fund unreserved, undesignated fund balance).
- The general fund had a surplus of \$401,959 for 2006. At the end of the year, unreserved fund balance for the general fund was \$8,352,216, or approximately 8.5 percent of total general fund expenditures and transfers out. Total fund balance for the general fund was \$8,493,285.
- The County's investment in capital assets increased by \$6,891,335 during 2006.
- The County's total bonded debt, excluding delinquent tax notes, increased by \$22,785,000 during the current fiscal year.

### **Using this Annual Report**

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the County as a whole (government-wide financial statements) and present a longer-term view of the County's finances. Fund financial statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the County's operations in more detail than the government-wide statements by providing information about the County's most significant funds.

The remaining statements provide financial information about activities for which the County acts solely as a trustee or agent for the benefit of those outside of the government. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information. This is limited to a schedule concerning the County's progress in funding its obligation to provide pension benefits to certain employees.

### Reporting the County as a Whole

The Statement of Net Assets and the Statement of Activities. One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of this year's activities?" The Statement of Net Assets and the Statement of Activities report information about the County as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the County's *net assets* and changes in them. One can think of the County's net assets – the difference between assets and liabilities – as one way to measure the County's financial health, or *financial position*. Over time, *increases or decreases* in the County's net assets are one indicator of whether its *financial health* is improving or deteriorating. During 2006, the net assets of the County increased by \$21.5 million.

The Statement of Net Assets and the Statement of Activities, present information about the following:

Governmental activities. All of the County's basic services are considered to be governmental activities, including legislative, judicial, general government, public safety, public works, health, social services, culture and recreation, and other activities. Property taxes, intergovernmental revenue, and charges for services finance most of these activities.

**Business-type activities.** Other functions of the County that are intended to recover all or a significant portion of their costs through user fees and charges are considered to be business-type activities. These include delinquent tax collections and property foreclosures.

Component units. The County includes four legally separate entities in its financial statements: the Washtenaw County Department of Public Works Projects, the Washtenaw County Drain Commissioner, the Washtenaw County Hazardous Materials Response Authority and the Washtenaw County Road Commission. Although legally separate, these "component units" are important because the County is financially accountable for them.

Financial information for these *component units* are reported separately from the financial information presented for the primary government itself. The Washtenaw County Building Authority, although also legally separate, functions for all practical purposes as a department of the County, and therefore has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 17-19 of this report.

### **Reporting the County's Most Significant Funds**

**Fund Financial Statements.** The fund financial statements provide detailed information about the most significant funds - not the County as a whole. Some funds are required to be established by State law and by bond covenants. However, the County establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The County's two primary kinds of funds – *governmental and proprietary* – use different accounting approaches.

Governmental funds. Most of the County's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called the *modified accrual* basis of accounting, which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the County's general governmental operations and the basic services it provides.

Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 31 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, community support and treatment services, parks and recreation, revenue sharing reserve, county debt service, and county capital project funds, each of which are considered to be major funds. Data from the other 25 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 20-30 of this report.

**Proprietary funds.** The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for delinquent tax operations and property foreclosures. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for support services provided to other departments, which includes phone services, fleet, facilities management, insurance, duplicating and copier replacement, mail services and payroll fringe benefits. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the delinquent tax operations and other enterprise funds. Conversely, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31-34 of this report.

### Reporting the County's Fiduciary Responsibilities

The County is the trustee, or *fiduciary*, for certain amounts held on behalf of others. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the County's own programs. The County's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. The accounting used for fiduciary funds is much like that used for proprietary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The basic fiduciary fund financial statements can be found on pages 35-36 of this report.

### **Additional Information**

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39-81 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This is limited to a schedule concerning the County's progress in funding its obligation to provide pension benefits to certain employees. Required supplementary information can be found on pages 82 and 83 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 84-117 of this report.

### Financial Analysis of the County as a Whole

The government-wide financial analysis focuses on the net assets and changes in net assets of the County's governmental and business-type activities. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As the following table demonstrates, the County's assets exceeded its liabilities by \$185,428,839 at December 31, 2006.

| Total net assets                  | \$                      | 175,342,966 | \$ | 154,222,753              | \$ | 10,085,873 | \$ | 9,722,818  | \$ | 185,428,839 | \$ | 163,945,571 |

By far, the largest portion of the County's net assets, \$90,342,374 (48.7 percent), is its investment in capital assets (i.e., land, buildings, vehicles and equipment), net of any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets, \$6,812,864 (3.7 percent), represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets*, \$88,273,601 (47.6 percent), may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all three categories (invested in capital assets-net of related debt, restricted and unrestricted) of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior year.

| Net assets - end of year                             | \$ 175,342,966 | \$ 154,222,753  | \$ 10,085,873 | \$ 9,722,818  | \$ 185,428,839 | \$ 163,945,571 |  |  |

The County's net assets increased by \$21.5 million during the current fiscal year; \$21.1 million increase for governmental activities and \$0.4 million increase for business-type activities.

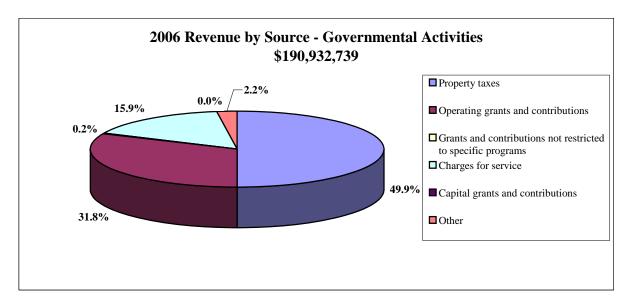

**Governmental activities**. Overall, total revenues exceeded total expenses by \$18.3 million, thereby accounting for 85.1 percent of the total growth in the net assets during 2006. Total revenues for governmental activities increased \$7.0 million over the prior year. Key elements of this increase are as follows:

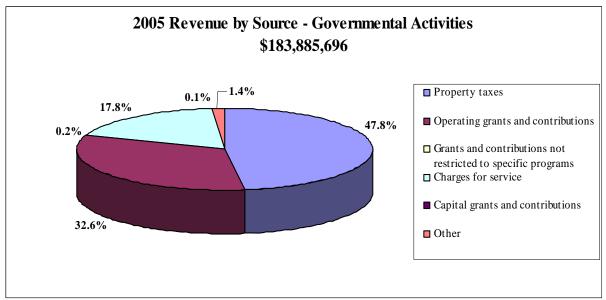

- Property taxes increased by approximately \$7.4 million (8.4 percent) during the year. This increase is the product of increased taxable values and residential growth.
- The other revenue category increased by \$1.6 million (61.5 percent) during the year due to investment earnings.
- Operating grants and contributions for governmental activities increased by \$1.3 million (2.2 percent) during the year. Grant awards and contributions furnished additional resources to supplement programs in the area of social service activities.
- The above mentioned increases are offset by decreases in charges for services (\$3.0 million) and grants and contributions (\$.2 million) for both categories, capital and not restricted to specific programs. The 9.3 percent decrease in charges of services during 2006 was because of decreased volume in real estate transfers, new mortgages, refinancing and vital records requests for general government activities and lower immunization, maternal support and substance abuse services for health activities. The 33.8 percent decrease in grants and contributions in 2006 is a result of less miscellaneous, refund, reimbursement and rental revenues during the year.

Overall, total expenses for governmental activities increased \$10.0 million during the year. The functional areas that comprise most of this increase are social services (\$3.5 million), health (\$3.2 million), public safety (\$1.6 million) and judicial (\$1.4 million) activities.

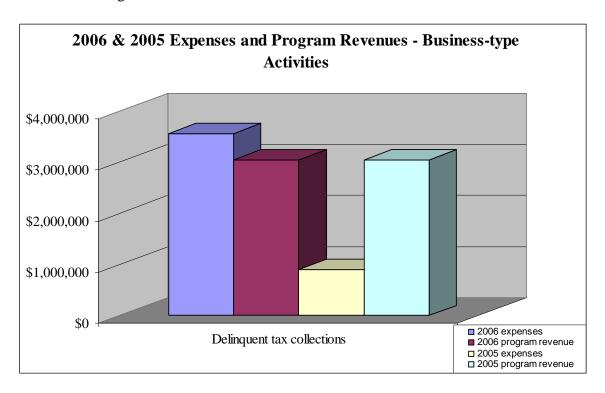

Cost increases in the social services area were for community development, community support and treatment services, and housing and homelessness initiatives. Costs increased in health operations because of the County's initiative to provide residents affordable insurance and heath care services. Costs increased in Sheriff's operations because of increased staffing levels and additional medical services, food and supplies being needed due to the elevated number of inmates. Jail overcrowding also increases costs when the County boards inmates out to other jurisdictions. Costs increased in judicial activities for trial court operations. Other increases closely paralleled inflation and the growth in demand for services.

**Business-type activities.** Business-type activities increased the County's net assets by \$0.36 million. Key elements of the current year increase are as follows:

- Charges for services revenue for business-type activities increased \$517,238 in comparison to the prior year due to higher delinquent tax and property foreclosure activity during 2006. Expenditures increased by \$313,172 due to salary and fringe benefit expenses for collection activity.
- The other revenue category increased by \$.9 million (61.5 percent) during the year due to investment earnings.

### Financial Analysis of the County's Funds

As noted earlier, Washtenaw County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$115,048,596, an increase of \$37,358,830 in comparison with the prior year. Ninety-two percent of the ending fund balances are subject to the underlying limitations applicable to the particular special revenue, debt service and capital project funds. The other eight percent of this total amount, \$8,352,216, is available for spending at the government's discretion only (general fund unreserved, undesignated fund balance). The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed for land acquisition under the natural area preservation program, as the funding source to replace state revenue sharing, and for improvements to existing assets and new construction for capital projects, as well as for long-term advances and prepaid items.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$8,352,216, while total fund balance was \$8,493,285. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 8.5 percent of total general fund expenditures and transfers out. This level of unreserved fund balance in the general fund meets the Board of Commissioners formal adopted policy, as well as the Government Finance Officer's Association recommended practices.

The fund balance of the County's general fund increased by \$401,959 during the current fiscal year. This is primarily attributable to growth in property taxes, as previously discussed, relative to government-wide governmental activities.

The financial position of the community support and treatment services fund improved by \$142,142 during 2006. Total fund balance at the end of the year is \$1,046,464.

The parks and recreation fund had a total fund balance of \$19,129,708, which increased \$1.9 million in the current year. The growth in fund balance is attributable to a voter-approved millage for the purpose of acquiring land under the natural areas preservation program. Fund balance will be used in subsequent years as the land acquisitions are completed.

The revenue sharing reserve fund had a total fund balance of \$43,016,850, an increase of \$13.8 million during 2006. This fund is mandated by the State of Michigan and accounts for accelerated property tax collections to serve as a substitute for state revenue sharing payments. Annual tax payments, each equal to 1/3 of the annual property tax levy, were placed in this fund over the past three years, 2004-2006. Beginning in 2004 the County started withdrawing monies from this fund equal to the fiscal 2004 state revenue sharing payments adjusted for inflation. The County will continue drawing down revenue sharing from the reserve fund using an inflationary factor over the prior year amount. This fund will decline approximately \$6,000,000 per year in the future until the fund balance is exhausted.

The county debt service fund had a nominal fund balance of \$936 at year end. This fund accounts for the resources, including a voter-approved millage beginning in 2007, accumulated and payments made for principal and interest on long-term general obligation debt that financed certain building improvements and a new emergency communications system.

The county capital projects fund accounts for renovations and modification of existing facilities, new capital construction projects and the purchase of capital equipment. The county capital projects fund has a total fund balance of \$36,965,926. In addition, maintenance to existing facilities such as replacement of roof systems, carpeting, and other interior finishes are also funded by the county capital projects fund. The net increase in fund balance during the current year in the county capital projects fund was \$22,075,277 and is attributable to the issuance of capital improvement bonds in the amount of \$23.8 million to fund the County's Enhanced Emergency Communications System.

**Proprietary funds**. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the delinquent tax, other enterprise and internal service funds at the end of the year amounted to \$8,140,331, \$1,945,542 and \$2,417,965, respectively. The delinquent tax fund had a decrease in net assets for the year of \$103,278, whereas the other enterprise funds had an increase of \$466,333 and the internal service funds had a decrease of \$813,866. Other factors concerning the finances of the delinquent tax fund have already been addressed in the discussion of the County's business-type activities.

### **General Fund Budgetary Highlights**

General fund revenues (including transfers in) increased by \$1.2 million from the original to the final budget. This was attributable to an increase in the budget amount of \$540,000 for property tax revenues. The shift of the County's tax levy, from December 1 to July 1, has resulted in the recognition of increased taxable values and residential growth six months sooner than in the past. The budget amount for investment income was increased by \$370,000 due to interest earnings. There was also a budget amount increase of \$294,000 for intergovernmental revenues primarily from contributions from local entities for the Washtenaw Health Plan, the County's indigent health care program (a corresponding adjustment was also made to transfers out for the disproportionate share hospital [DSH] payments), and federal grant revenue for emergency management services. Finally, other small increases in charges for services and other revenues also took place.

There was a corresponding \$1.2 million increase (1.3%) between the original and final amended expenditure budget (including transfers out). The budget amount for public safety activities increased \$1.7 million for sheriff - police services, dispatch and jail overcrowding (\$1.6 million) and a nominal increase for prosecuting attorney activities (\$155,000) for personnel services and extradition costs. The County held \$700,000 in reserves and undesignated allocation for the jail because of the history of overcrowding and the increased costs associated with it. There was a budget amount increase of \$305,000 for social services activities, primarily due to human services agency contracts. Prior to 2006 multiple human service departments provided oversight to outside agencies. This budget adjustment was made to allocate the funding from multiple oversight departments to one department (children services) to monitor. There was a budget increase of \$346,000 for general government activities in the areas of human resources (consultants and contracts for temporary services, costs associated with updating the County's equal employment opportunity plan, fit for duty evaluations and compensation analysis) and clerk register (for personnel services and agency contract costs). A small increase for probate court services also took place.

It should be noted that there was a \$1.7 million decrease in the budget for transfers out which partially offset the needed budget increase for public safety, as discussed above, after the use of jail reserves allocated to the sheriff department. In addition, there was a \$426,000 budget increase in the other unallocated expenditure category because certain budgeted transfers out were not made during 2006. Other unallocated expenditures were designated as transfers out in the original budget, then reclassified later in the year as other services and charges, and have final budget amounts in that expenditure category, but no original budget amounts.

Overall during the year, actual general fund revenues, including other financing sources, were more than the final budget. Actual general fund expenditures, including other financing uses, were less than the final budget. Actual revenues were higher than actual expenditures. This resulted in an increase in the actual fund balance of \$401,959, which was more than the final amended budget amount of \$250,000.

### **Capital Asset and Debt Administration**

Capital assets. The County's investment in capital assets for its governmental activities as of December 31, 2006, amounted to \$123,301,798 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, and machinery and equipment. The total increase in the County's investment in capital assets for the current fiscal year was 5.9 percent. The County's business-type activities have no capital assets.

Major capital asset events during the current fiscal year included the following:

- Parks and Recreation acquired land in the amount of \$5.7 million under the Natural Areas Preservation Program.
- Construction in progress as of the close of the fiscal year had a balance of \$627,212. The County has active construction projects that include Parks and Recreation's border-to-border trail development, and capital projects that include enhancement to the emergency communications system and jail construction and improvements.
- Various building additions/improvements were completed during the year resulting in a net increase to capital assets of \$.96 million.
- Other capital improvements, including landscaping and parking lot improvements, resulted in a net increase to capital assets of \$.6 million.
- Machinery and equipment as of the close of the fiscal year had a balance of \$4.7 million. The decrease of \$.5 million from the prior year is a result of a slightly higher amount of disposals than new purchases.

The County's total debt increased by \$22,785,000 (50 percent) during the current fiscal year. The County retired debt of \$2,965,000 in general obligation bonds and \$10,000,000 in delinquent tax notes during 2006.

The only new borrowing during the year was \$23,750,000 in general obligation bonds for governmental activities for an upgrade to the County's Enhanced Emergency Communications System and \$12,000,000 in delinquent tax notes for business-type activities. Debt service requirements for general obligation bonds of \$4,205,000 and interest of \$1,873,791 are payable during 2007. The principal payment for delinquent tax notes of \$12,000,000 and an interest payment of \$570,685 are due February 15, 2007.

The County has an "Aa2" rating for both general obligation bonds and tax notes from Moody's. The County has an "AA+" rating for both general obligation bonds and tax notes from Standard & Poor's. Finally, the County has a "Prime-1" rating for general obligation tax notes from Fitch.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation (i.e., State Equalized Value). The current debt limitation for the County is \$1,854,553,316, which is significantly in excess of the County's outstanding general obligation debt.

Additional information on the County's long-term debt can be found in note III.G on pages 66-71 of this report.

### **Economic Factors and Next Year's Budgets and Rates**

The following factors were considered in preparing the County's biennial budget for the 2006 and 2007 fiscal years:

- The Michigan economic downturn and prior stock market declines have a continuing impact on the County's fiscal operations. Stock market declines have increased the County's funding obligation for its defined benefit pension plans. This trend will continue into the foreseeable future.
- The County has continued its commitment to the 3% annual salary increase for all employees, as negotiated in union contracts, as well as fringe benefit health care, retirement, and others rate increases.
- The unemployment rate for the County is currently 4.4%, slightly higher than a year ago. This compares favorably to the state's average unemployment rate of 6.8% and the national average rate of 4.6%.
- Michigan has two constitutional laws that limit property tax growth to the rate of inflation or a maximum allowable increase in an assessment of 5.0%, whichever is smaller. For the 2006/2007 budget the applicable inflation rate is only 3.3%. Therefore, property tax revenues are budgeted to increase 6.0% in 2006 and 2007 due to new construction being added to the tax rolls and transfers of ownership.
- The State of Michigan has been dealing with projected budgetary shortfalls for the past three years and is projected to continue into the future, at least until 2008. The State has passed legislation that provides a funding mechanism to serve as a substitute for state revenue sharing payments. Annually, the County may make use of amounts equal to 2004/05 State revenue sharing payments adjusted for inflation.
- The County has committed to maintaining a general fund balance that is at least 8.0% of operating expenditures.
- Financial trends in the region compare favorably to national indices. Analysis of revenue, expenditure, operating position, debt structure, unfunded liabilities, condition of capital plant, and community needs and resources indicators are examined across time to provide a framework for objective investigation.

### **Contacting the County's Financial Management**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Washtenaw County Finance Department, 220 North Main Street, P.O. Box 8645, Ann Arbor, Michigan 48107-8645.

## Reconciliation of Fund Balances on the Balance Sheet for Governmental Funds to Net Assets of Governmental Activities on the Statement of Net Assets December 31, 2006

| Fund balances - total governmental funds   | \$<br>115,048,596                             |
|--|---|
| Amounts reported for <i>governmental activities</i> in the statement of net assets are different because:  |   |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.  |   |
| Add - capital assets  Deduct - accumulated depreciation  | 162,792,649<br>(42,270,831)                   |
| Other long-term assets are not available to pay for current-period expenditures and therefore are not recorded in the funds.   | 3,094,682                                     |
| Discounts and premiums on bonds are reported as other financing uses or sources in the governmental funds, whereas they are capitalized and amortized for net assets (and netted against bonds payable)  |   |
| Add - bond discounts Deduct - bond premiums  | 40,000<br>(448,914)                           |
| Deferred charges for bond issuance costs are currently expended in the governmental funds, whereas they are capitalized and amortized for net assets.  | 707,690                                       |
| Losses on refunding are not reported in the governmental funds, whereas they are capitalized and amortized for net assets (and netted against bonds payable)   | 1,157,904                                     |
| Internal service funds are used by management to charge the costs of certain activities such as insurance, worker's compensation, and building occupancy and maintenance. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. | 5,197,945                                     |
| Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.   |   |
| Deduct - bonds, notes and capital leases payable Deduct - accrued interest on bonds payable Deduct - accrued compensated absences and other long-term liabilities  | <br>(56,962,606)<br>(108,167)<br>(12,905,982) |
| Net assets of governmental activities  | \$<br>175,342,966                             |

#### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended December 31, 2006

| Amounts reported for governmental activities in the statement of activities are different because:  Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.  Add - capital outlay  Deduct - depreciation expense  Odduct - loss on disposal of capital assets  Revenues in the statement of activities that do not provide current resources are not reported as revenues in the funds.  (411,976) |

| ·   |
| •   |
|   |
| Bond proceeds provide current financial resources to governmental funds in the period   |
| issued, but issuing bonds increases long-term liabilities in the statement of net assets.   |
| Repayment of bond principal is an expenditure in the governmental funds, but the  |
| repayment reduces long-term liabilities in the statement of net assets.   |
| Deduct - bond proceeds (23,750,000)   |
| Add - bond issuance costs 183,585   |
| Deduct - premium on bonds (236,004)   |
| Add - principal payments on long-term liabilities 2,984,476   |
| Add - principal payments on capital leases 152,524  |
| Accrued interest expense on bonds and the amortization of bond issuance costs,  |
| discounts, premiums and deferred losses are not recorded by governmental funds,   |
| but are reported under interest and fiscal charges for purposes of net assets:  |
| Accrued interest expense 16,962   |
| Amortization of bond issuance costs (67,013)  |
| Amortization of discount on bonds (2,500)   |
| Amortization of premium on bonds 49,484   |
| Amortization of deferred loss on refunding (120,459)  |
| Internal service funds are used by management to charge the costs of certain activities   |
| such as insurance, workers' compensation, and building occupancy and maintenance  |
| to individual governmental funds. The net revenue (expense) attributable to those funds   |
| is reported with governmental activities.   |
| Deduct - net operating income from governmental activities in internal service funds (1,819,597)  |
| Add - interest revenue from governmental internal service funds 390,990   |
| Deduct - net loss on disposal of capital assets in governmental internal service funds (31,756)   |
| Deduct - interest expense and fiscal charges from governmental internal service funds (51,734)  |
| Add - net transfer from governmental internal service fund to debt service fund 698,231   |
| Some expenses reported in the statement of activities do not require the use of current   |
| financial resources and therefore are not reported as expenditures in the funds.  |
| Deduct - increase in accrual for accrued compensated absences (710,732)   |
| Change in net assets of governmental activities \$ 21,120,213   |

#### NOTES TO FINANCIAL STATEMENTS

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of Washtenaw County, Michigan (the "County" or "government") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

#### A. Reporting Entity

Washtenaw County is a municipal corporation governed by an 11-member commission and administered by an appointed county administrator. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the government's operations. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government. The blended and discretely presented component units have December 31 year ends.

## **Blended Component Unit**

The Washtenaw County Building Authority is governed by a five-member board appointed by the Board of Commissioners. The Building Authority is reported as if it was part of the primary government because its sole purpose is to finance and construct the County's public buildings.

#### **Discretely Presented Component Units**

The Washtenaw County Department of Public Works Projects is managed by the Board of Public Works, a seven-member board appointed by the County Board of Commissioners. The Board of Public Works is responsible for administering various public works construction projects and the associated debt service funds on behalf of local units of government within the County under the provisions of Act 185, Public Acts of 1957, as amended. All of the Board of Public Works' contractual agreements including bond issuances require County Board of Commissioners approval. The full faith and credit of the County is given for the long-term debt of these projects.

Each of the drainage districts included in the financial statements of the *Washtenaw County Drain Commissioner* are separate legal entities with the power to contract; to sue and to be sued; and to hold, manage and dispose of real and personal property. The Statutory Drain Board consists of the Drain Commissioner, the Chair of the County Board of Commissioners, and one other member of the Board of Commissioners. The Drain Commissioner is responsible for the construction and maintenance of storm drains within the County. The full faith and credit of the County is often given for the long-term debt of the drainage districts.

#### NOTES TO FINANCIAL STATEMENTS

The Washtenaw County Hazardous Materials Response Team Authority (WCHMRTA) is managed by an eleven-member board composed of a representative from each of the five enabling jurisdictions (Washtenaw County, City of Ann Arbor, City of Ypsilanti, Pittsfield Township and Ypsilanti Township) appointed by their governing bodies, three representatives appointed by the Mutual Aid Association, and one member each from the Criminal Justice Association, Washtenaw County Public Health Department, and Huron Valley Ambulance. A Technical Advisory Committee supports the Board. The WCHMRTA was formed to develop and manage a county wide hazardous material response team. The Washtenaw County Board of Commissioners approves the operating budget and the Authority has delegated fiscal powers to the County.

The Washtenaw County Brownfield Redevelopment Authority (WCBRA) is governed by a nine-member board appointed by the Washtenaw County Board of Commissioners. Its purpose is to encourage and support the redevelopment of under-utilized and environmentally contaminated properties in partnership with member communities in Washtenaw County. The County Board of Commissioners approves WCBRA's operating budget; WCBRA has delegated fiscal powers to the County. The WCBRA had minimal financial activity during 2006 and therefore, no separate financial report was issued.

The *Washtenaw County Road Commission* is responsible for the maintenance and construction of the county road system in Washtenaw County. It is governed by a three-member board appointed by the County Board of Commissioners. The Road Commission may not issue debt or levy a tax without the approval of the County Board of Commissioners. The Road Commission deposits its receipts with and has investments through the County.

Complete financial statements for each of the discretely presented component units can be obtained directly from their respective administrative offices, as follows:

| Department of Public Works | Drain Commissioner  | WCHMRTA               | Road Commission     |
|----------------------------|---------------------|-----------------------|---------------------|
| 705 North Zeeb Road        | 705 North Zeeb Road | 220 North Main Street | 555 North Zeeb Road |
| Ann Arbor, MI 48107        | Ann Arbor, MI 48107 | Ann Arbor, MI 48107   | Ann Arbor, MI 48106 |

#### **Funds with Another Year End**

The Community Support & Treatment Services Fund and Public Health Fund (special revenue funds of the County) are reported on a September 30 year end in order to enhance the value of this document to certain readers and users.

#### NOTES TO FINANCIAL STATEMENTS

#### **B.** Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. So agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for reimbursement-based grants which use one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

#### NOTES TO FINANCIAL STATEMENTS

Property taxes, state revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *community support and treatment services fund* accounts for the activities of delivering an array of mental health services to residents.

The *parks and recreation fund* accounts for the operations of the County-owned parks and recreational facilities and to account for the millage approved by County voters for the purchase of natural areas within the County.

The revenue sharing reserve fund is mandated by the State of Michigan and accounts for property tax collections to serve as a substitute to state revenue sharing payments. This substitute funding mechanism involves a gradual shift of County property tax millage from a winter tax levy to a summer tax levy. The collections shift will be complete when the entire tax levy is assessed in July, 2007.

The *county debt service fund* accounts for the resources, including a voter-approved millage beginning for 2007, accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds that financed certain building improvements and an enhanced emergency communications system.

The *county capital projects fund* accounts for renovation/small construction projects performed on County facilities and the purchase of capital equipment.

The government reports the following major proprietary fund:

The *delinquent tax revolving fund* accounts for the County's annual purchase of delinquent real property taxes from each of the local taxing units within the County and the ultimate collection from the property owners of the delinquent taxes with penalty and interest. The fund also accounts for the County's issuance of debt (to provide cash flow for the purchase of the taxes) and for the resulting debt service payments.

#### NOTES TO FINANCIAL STATEMENTS

Additionally, the government reports the following fund types:

The *special revenue funds* account for revenue sources that are legally restricted to expenditures for specific purposes not including major capital projects.

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds not being financed by proprietary funds.

The *capital projects fund* accounts for financial resources to be used for the acquisition of capital equipment or construction of major capital facilities.

The *enterprise funds* account for those operations that are financed and operated in a manner similar to private business or where the County has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The *internal service funds* account for operations that provide services (such as the County's telephone system, building repair and maintenance, self-insurance, fleet and equipment management) to other departments or agencies of the County, or to other governments, on a cost-reimbursement basis.

The agency funds account for assets held for other governments in an agency capacity.

The pension and other employee benefit trust funds account for the activities of the Employees Retirement System, Money Purchase Pension Plan, and Voluntary Employees Beneficiary Association, which accumulate resources for pension and health benefit payments for qualified employees. The trust funds also include the Unemployment and Severance funds, which accumulate resources for unemployment and severance benefit payments, respectively, to qualified employees.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

#### NOTES TO FINANCIAL STATEMENTS

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the delinquent tax fund and of the government's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### D. Assets, Liabilities and Net Assets or Equity

#### 1. Deposits and Investments

The County Treasurer maintains a cash management pool that is used by all funds and component units of the government, except for the pension and other employee benefit trust funds. In addition to their participation in the cash management pool, certain funds and component units also have separate checking accounts. The cash management pool has the general characteristics of a demand deposit account in that deposits and withdrawals may be made at any time without prior notice or penalty. Accordingly, each fund's portion of this pool, along with any amounts in separate demand deposit accounts, is reported as "cash and pooled investments."

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less.

Investments are stated at fair value, which is determined as follows: (a) short-term investments are reported at cost, which approximates fair value; (b) securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates; (c) investments that do not have established market values are reported at estimated fair value; and (d) cash deposits are reported at carrying amounts which reasonably approximates fair value.

State statutes authorize the County to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments (except those with a fluctuating per share value). State statutes authorize pension and other employee benefit plans to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations.

#### NOTES TO FINANCIAL STATEMENTS

#### 2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles.

## 3. Inventories and Prepaid Items

Inventories in the proprietary funds are stated at the lower of cost or market. Cost is determined by the first-in, first-out method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. For the Road Commission component unit, inventory is valued at average cost.

#### 4. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. For the County, infrastructure exists in the Drain Commissioner and Road Commission component units. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Capital assets are defined by the Road Commission as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the primary government and component units, except for the Road Commission, are depreciated using the straight-line method over the useful life of the assets as follows:

Buildings and improvements 50 years
Drain infrastructure 50 years
Equipment (computer, office and vehicles) 2.5 to 10 years

#### NOTES TO FINANCIAL STATEMENTS

For the Road Commission component unit, capital assets are depreciated using the straight-line method over the following useful lives:

| Buildings               | 40 to 60 years |
|-------------------------|----------------|
| Machinery and equipment | 5 to 20 years  |
| Roads                   | 5 to 30 years  |
| Infrastructure          | 12 to 50 years |

#### 5. Compensated Absences

The County's policy is to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay and 50 percent of sick pay are accrued when incurred in the government-wide and proprietary funds financial statements. A liability is reported in governmental funds only if these amounts have matured, for example, as a result of employee resignations or retirements.

#### 6. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 7. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### 8. Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### NOTES TO FINANCIAL STATEMENTS

#### II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. Budgets are not required for debt service and capital projects funds. All annual appropriations lapse at year-end.

The County utilizes a biennial budget to improve the efficiency of the overall budgeting process. The first year of the biennial budget is prepared for approval and adoption, and the second year is based on information currently available. The second year budget is amended during the first year to reflect necessary revisions as economic conditions warrant. Necessary changes are brought back to the Board of Commissioners prior to the beginning of the fiscal year for final adoption.

The County Administrator submits a proposed budget to the Board of Commissioners before September 15. The budget includes proposed expenditures and the means of financing them. Public hearings are held to obtain taxpayer comments. The budget is adopted no later than December 31 through a Board of Commissioners resolution.

The appropriated budget is prepared by fund, function and department. The County's department heads may make limited transfers of appropriations within a department. Transfers of appropriations between departments require approval by the Board of Commissioners or County Administrator, depending on the dollar value of the transfers. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level for the General Fund and the function level for special revenue funds. Supplemental budgetary appropriations were made during the year, but were not material for purposes of these disclosures.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental funds. Encumbrances are recorded in the amount of the outstanding purchase orders and contracts at the time the purchase orders and contracts are issued. The encumbrances are liquidated when the goods or services are received. Unliquidated encumbrances at the end of the year are not carried forward to the next year.

#### **B.** Excess of Expenditures over Appropriations

State statutes provide that a local unit shall not incur expenditures in excess of the amount appropriated. The approved budgets of the County were adopted on a department level basis for the General Fund and the function level for the special revenue funds.

### NOTES TO FINANCIAL STATEMENTS

Excess of expenditures over appropriations in individual funds are as follows:

| Final       |  |  |
|-------------|--|--|
| Budget      | Actual   | Excess   |
|             |  |  |
| ¢ 4.460.111 | ¢ 4506010  | \$ 46,808  |
|             |  |  |
| 22,209,778  | 22,332,075   | 122,297  |
| 5,903,774   | 5,920,969  | 17,195   |
|             |  |  |
| 11,728,112  | 12,175,719   | 447,607  |
| -           | 20,415   | 20,415   |
| -           | 46,315   | 46,315   |
| 270,972     | 307,110  | 36,138   |
|             |  |  |
| 8,500       | 30,320   | 21,820   |
| -           | 1,328  | 1,328  |
| -           | 524,722  | 524,722  |
|             |  |  |
| 425,000     | 522,443  | 97,443   |

### **Bank Deposits and Treasurer's Investment Pool**

Custodial Credit Risk - Deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance. As of December 31, 2006, \$11,400,491 of the County's total bank balance of \$11,906,672 (total book balance was \$12,175,960) was exposed to custodial credit risk as it was uninsured and uncollateralized.

In accordance with the County's investment policy and State law, all deposits are uncollateralized, held in the County's name, and evidenced by a safekeeping receipt. Also, due to the dollar amounts of cash deposits and the limits of FDIC insurance, the County believes it is impractical to insure all bank deposits. As a result, the County evaluates each financial institution and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

### NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk - Investments. Following is a summary of the County's investments as of December 31, 2006:

| U.S. treasuries            | \$<br>43,630,290 |
|----------------------------|------------------|
| U.S. agencies              | 26,805,950       |
| Commercial paper           | 32,720,620       |
| Washtenaw County tax notes | 12,000,000       |
| Money market               | <br>17,323,942   |
|                            |                  |

Total <u>\$ 132,480,802</u>

Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agent but not in the government's name. In accordance with the County's investment policy, all investments are held in the name of the County and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

*Credit Risk*. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investment policy and State law require that commercial paper be rated in the top two ratings by at least two nationally recognized statistical rating organizations (NRSRO); investments in local government tax notes must be rated in the top two ratings by one NRSRO. Ratings are not required for U.S. treasuries or money market funds.

As of December 31, 2006, all of the County's investments in securities of U.S. agencies were rated AAA by Standard & Poor's. Of the County's holdings in commercial paper, \$19,000,000 was rated A-1+ and \$11,000,000 was rated A-1 by Standard & Poor's; all of the County's commercial paper was rated P-1 by Moody's. Of the County's investments in money market funds, \$8,839,192 was rated AAA by Standard & Poor's and the remaining \$8,484,750, was not rated. The County's investment in its own general obligation limited tax notes was rated F1+ by Fitch.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's investment policy requires diversification by security type and institution, but does not place a fixed percentage limit for any one issuer. At December 31, 2006, the County had greater than 5% of its total investment portfolio concentrated as follows:

|                        |  | % of             |
|------------------------|--|------------------|
| <b>Investment Type</b> | Issuer                                 | <b>Portfolio</b> |
| U.S. agencies          | Federal Home Loan Bank                 | 6.7%             |
|                        | Federal Home Loan Mortgage Corporation | 7.5%             |
|                        | Federal National Mortgage Association  | 6.0%             |
| Commercial paper       | UBS Financial                          | 5.2%             |
| Local government       | Washtenaw County tax notes             | 9.1%             |

### NOTES TO FINANCIAL STATEMENTS

Interest Rate Risk. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of investments. The County's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, it is the practice of the County to manage this risk by purchasing a mix of short and longer term investments. This laddering approach also matches investment maturities to projected cash flow needs.

As of December 31, 2006, maturities of the County's debt securities were as follows:

|                  |                   | <b>Investment Maturities (fair value by years)</b> |                |    |           |    |    |    |             |
|------------------|-------------------|--|----------------|----|-----------|----|----|----|-------------|
|                  | Fair Value        |  | Less<br>Than 1 |    | 1-5       | 6- | 10 |    | ore<br>n 10 |
|                  |                   |  |                |    |           | _  |    |    |             |
| U.S. treasuries  | \$<br>43,630,290  | \$   | 38,663,290     | \$ | 4,967,000 | \$ | -  | \$ | -           |
| U.S. agencies    | 26,805,950        |  | 21,845,280     |    | 4,960,670 |    | -  |    | -           |
| Commercial paper | 32,720,620        |  | 32,720,620     |    | -         |    | -  |    | -           |
| Local government | <br>12,000,000    |  | 12,000,000     |    |           |    |    |    |             |
|                  | \$<br>115,156,860 | \$   | 105,229,190    | \$ | 9,927,670 | \$ |    | \$ |             |

### **Employees Retirement System Investments**

The System's investments are primarily held in a bank-administered trust fund. Following is a summary of the System's investments as of December 31, 2006:

Investments at fair value, as determined by quoted market price:

| Equities:                |                       |
|--------------------------|-----------------------|
| Not on securities loan   | \$ 86,030,930         |
| On securities loan       | 2,540,553             |
| U.S. treasuries          | 2,217,429             |
| U.S. treasury strips     | 10,565,936            |
| U.S. agencies:           |                       |
| Not on securities loan   | 19,859,171            |
| On securities loan       | 2,947,661             |
| Corporate securities     | 16,874,850            |
| Mutual funds             | 6,123,894             |
| Money market funds       | 13,374,714            |
| <b>Total investments</b> | <u>\$ 160,535,138</u> |

### NOTES TO FINANCIAL STATEMENTS

Total realized and unrealized gains and losses for the year ended December 31, 2006, are as follows:

|  | Realized                       | Unrealized      | Net                  |
|--|--------------------------------|-----------------|----------------------|
|  | Gain                           | Gain            | Appreciation         |
|  | <u>(Loss</u> )                 | ( <u>Loss</u> ) | (Depreciation)       |
| Equities Corporate and U.S. securities | \$ 10,512,626 \$               | 493,818         | \$ 11,006,444        |
|  | (59,057)                       | (122,196)       | (181,253)            |
| Total                                  | <u>\$ 10,453,569</u> <u>\$</u> | 371,622         | <u>\$ 10,825,191</u> |

The calculation of realized gains and losses is independent of the calculation of net appreciation (depreciation) in the fair value of System investments. Unrealized gains and losses on investments sold in the current year that had been held for more than one year were included in the net appreciation (depreciation) reported in prior years and the current year.

*Credit Risk*. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System's investment policy provides that 90% of its investments in fixed income securities be limited to those rated BAA or better by a nationally recognized statistical rating organization, except for United States treasury securities which are explicitly guaranteed by the U.S. government and not considered to have credit risk.

As of December 31, 2006, all of the System's investments in securities of U.S. agencies that are implicitly guaranteed by the U.S. government (\$2,406,451 of U.S. agencies are explicitly guaranteed) were rated AAA by Standard & Poor's, except for \$156,328 in securities which were rated AA.

The System's investments in corporate securities are rated by Standard & Poor's as follows:

| \$<br>16,874,850 |
|------------------|
| <br>1,616,226    |
| 60,128           |
| 2,087,808        |
| 3,226,352        |
| 3,071,453        |
| \$<br>6,812,883  |
| \$<br>           |

The System's investments in money market funds are not rated. The System does not invest in bond mutual funds.

### NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System's investment policy requires that securities be held in trust by a third-party institution in the System's name or its nominee custodian's name or in bearer form. Although uninsured and unregistered, the System's investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department or agent in the System's name. Short-term investments in money market funds and openend mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investment in a single issuer. The System's investment policy requires that no more than 20% of equity securities be invested in any one industry and no more than 8% of each manager's large cap equities fund be invested in any one company. The policy also provides that no more than 10% of fixed income securities may be invested in any one company and no more than 8% may be invested in any single issue.

At December 31, 2006, the System's investment portfolio is concentrated as follows:

| <b>Investment Type</b> | Issuer  | % of<br>Portfolio |
|------------------------|---|-------------------|
| Equities               | Wells Real Estate Investment Trust Inc.   | 6.9%              |
| U.S. agencies          | Federal National Mortgage Association<br>Federal Home Loan Mortgage Association | 7.1%<br>5.5%      |

*Interest Rate Risk*. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The System's investment policy requires a maximum term to maturity of 30 years for any single fixed income security. The System's investment policy does not address weighted average portfolio maturities.

### NOTES TO FINANCIAL STATEMENTS

As of December 31, 2006, maturities of the System's debt securities are as follows:

|                      |    |            |    | Investment Maturities (fair value by years) |    |            |    |            |    |            |
|----------------------|----|------------|----|---|----|------------|----|------------|----|------------|
|                      |    |            |    | Less  |    |            |    |            |    | More       |
|                      | ]  | Fair Value |    | Than 1                                      |    | <u> </u>   |    | 6-10       |    | Than 10    |
| U.S. treasuries      | \$ | 2,217,429  | \$ | 196,570                                     | \$ | 1,024,983  | \$ | -          | \$ | 995,876    |
| U.S. treasury strips |    | 10,565,936 |    | -   |    | 1,919,969  |    | 7,081,769  |    | 1,564,198  |
| U.S. agencies        |    | 22,806,832 |    | 149,625                                     |    | 819,029    |    | 2,957,349  |    | 18,880,829 |
| Corporate securities |    | 16,874,850 |    | 572,821                                     |    | 7,552,576  |    | 1,189,454  |    | 7,559,999  |
|                      | \$ | 52,465,047 | \$ | 919,016                                     | \$ | 11,316,557 | \$ | 11,228,572 | \$ | 29,000,902 |

Of the above balances, \$9,615,607 of the U.S. agencies securities and \$11,314,139 of corporate securities are callable.

The System's portfolio of U.S. agencies and corporate securities includes certain collateralized mortgage obligations (with interest-only and principal-only strips), variable-rate securities, and inverse variable-rate securities. The fair value of these investments is summarized as follows:

| Conateranzed mortgage obligations: |               |
|------------------------------------|---------------|
| Interest-only strips               | \$<br>159,859 |
| Principal-only strips              | 2,568,103     |
| Variable-rate securities           | 1,382,231     |
| Inverse variable-rate securities   | 1,315,369     |

The System invests in interest-only strips, in part, to maximize yields and as protection against a rise in interest rates. These securities are based on cash flows from interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates.

The System invests in principal-only strips to reduce the price sensitivity of its fixed-income portfolio to changes in interest rates. These principal-only strips are sensitive to interest rate increases that may result from decreasing mortgage prepayments, thus increasing the average maturity of these investments.

A variable-rate investment's coupon amount enhances or amplifies the effects of interest rate changes by greater than a one-to-one basis. The multiplier makes the fair value of these investments highly sensitive to interest rate changes. As of December 31, 2006, the System held three variable-rate investments with a fair value of \$1,382,231. The coupon rates for these investments range from 0.0% to 6.71%; the benchmark indexes include one-month, six month, and twelve month LIBOR, 11<sup>th</sup> District Monthly Weighted Average Cost of Funds Index (San Francisco); and Federal Reserve US H.15 Treasury Note Constant Maturity One Year; the reset frequency is monthly, semi-annually, or annually; the coupon payment frequency is monthly; and coupon multipliers range from 1.0 to 44.8 times the benchmark index, minus 268.8% to plus 20.40%.

### NOTES TO FINANCIAL STATEMENTS

As of December 31, 2006, the System held four inverse variable-rate investments with a fair value of \$1,315,369. With inverse variable-rate securities, coupon payments decline as interest rates increase. The coupon rates for these investments range from 0.01% to 7,548.50%; the benchmark indexes include one-month LIBOR, 11<sup>th</sup> District Monthly Weighted Average Cost of Funds Index (San Francisco), and three-month and ten-year treasury rate; the reset and coupon payment frequency is monthly; and coupon multipliers range from negative 2,253.07 to negative .60 times the benchmark index, plus 5.05% to 22,541.20%.

Securities Lending. A contract approved by the System's Board of Directors, permits the System to lend its securities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future. The System's custodial bank manages the securities lending program and receives securities or irrevocable bank letters of credit as collateral. The collateral securities cannot be pledged or sold by the System unless the borrower defaults. Collateral securities and letters of credit are initially pledged at 102 percent of the market value of the securities lent, and may not fall below 100 percent during the term of the loan. There are no restrictions on the amount of securities that can be loaned.

Securities on loan at year-end are classified in the preceding schedule of custodial credit risk according to the category for the collateral received on the securities lent. At year end, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. The contract with the System's custodian requires it to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan.

### **Money Purchase Pension Plan Investments**

The Plan's investments are held by its trustee, a third-party financial institution. The management agreement between the Plan and the trustee requires fifteen separate mutual funds, including eleven stock funds, one balanced fund, one bond fund, one guaranteed interest fund, and a self-directed brokerage option. Participants select the particular funds into which their contributions and the related County matching contributions are made. All of the Plan's investments totaling \$57,703,520 are in mutual funds.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2006 the Plan's bond mutual fund is not rated by a nationally recognized statistical rating organization. The Plan's investment policy does not address credit risk.

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Short-term investments in money market funds and open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form. At December 31, 2006, the Plan's bond mutual fund is an open-end mutual fund. Accordingly, the Plan's investments are not exposed to custodial credit risk. The Plan's investment policy does not address custodial credit risk.

### NOTES TO FINANCIAL STATEMENTS

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. At December 31, 2006, the weighted average maturity of the Plan's bond mutual fund is 5.03 years. The Plan's investment policy does not address interest rate risk.

### **Voluntary Employees Beneficiary Association (VEBA) Investments**

The VEBA's investments are held by an independent investment management company. Following is a summary of its investments as of December 31, 2006:

Investments at fair value, as determined

| \$ 30,030,960 |
|---------------|
| 150,635       |
| 289,605       |
| 255,808       |
| 492,063       |
| 7,398,912     |
| 4,575,503     |
|               |

**Total investments \$43,193,486** 

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The VEBA's investment policy provides that all of its investments in fixed income securities be rated A+ or better by a nationally recognized statistical rating organization, except for United States treasury securities which are explicitly guaranteed by the U.S. government and not considered to have credit risk.

As of December 31, 2006, the VEBA's investments in securities of U.S. agencies and the bond mutual fund are rated AAA by Standard & Poor's. The VEBA's investments in money market funds are also rated AAA by Standard & Poor's. The VEBA's investments in corporate securities are rated by Standard & Poor's as follows:

|           | \$<br>492,063 |
|-----------|---------------|
| Not Rated | <br>134,730   |
| CCC+      | 247,560       |
| B+        | \$<br>109,773 |

### NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the VEBA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The VEBA's investment policy does not address custodial credit risk. Although uninsured and unregistered, the VEBA's investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in the VEBA's name. Short-term investments in money market funds and open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the VEBA's investment in a single issuer. The VEBA's investment policy requires that no more than ten percent of its assets be invested in money market funds or short-term U.S. treasuries, no more than five percent in any one issuer and no more than twenty percent in any one industry. At December 31, 2006, the VEBA's investment portfolio is not exposed to concentration credit risk.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment policy provides that the weighted average maturity of its portfolio may not exceed 10 years. At year-end, maturities of debt securities are as follows:

|                      |    |           | <b>Investment Maturities (fair value by years)</b> |                |    |        | rs)           |    |                 |
|----------------------|----|-----------|--|----------------|----|--------|---------------|----|-----------------|
|                      | F  | air Value |  | Less<br>Than 1 |    | 1-5    | 6-10          |    | More<br>Than 10 |
| U.S. treasuries      | \$ | 150,635   | \$   | _              | \$ | _      | \$<br>_       | \$ | 150,635         |
| U.S. treasury strips |    | 289,605   |  | _              |    | -      | -             |    | 289,605         |
| U.S. agencies        |    | 255,808   |  | -              |    | 33,983 | -             |    | 221,825         |
| Corporate securities |    | 492,063   |  | 209,168        |    | 30,473 | 252,422       |    | -               |
|                      | \$ | 1,188,111 | \$   | 209,168        | \$ | 64,456 | \$<br>252,422 | \$ | 662,065         |

The bond mutual fund has a weighted average maturity of 5.54 years as of December 31, 2006. Of the above balances, \$125,327 of the U.S. treasuries and all of the corporate securities are callable.

The VEBA's portfolio of U.S. agencies securities includes one inverse variable-rate note with a par value of \$50,000 that matures November, 2008. The fair value of the note as of December 31, 2006 is \$4,321. The amount of the monthly coupon is calculated at negative 2.592 times the Eleventh District Monthly Weighted Average Cost of Funds Index (San Francisco) plus 18.144%, with a cap of 18.144%; thus, as interest rates increase, the coupon rate paid declines. The frequency of the coupon's reset date is monthly.

### NOTES TO FINANCIAL STATEMENTS

### **B.** Receivables

Receivables in the governmental activities are as follows:

|  | \$ 48,762,383 |
|--|---------------|
| Less: allowance for uncollectible accounts | (352,387)     |
| Intergovernmental                          | 6,212,720     |
| Leases                                     | 3,335,369     |
| Accounts                                   | 4,028,902     |
| Taxes                                      | \$ 35,537,779 |

The only amount not expected to be collected within one year is \$2,851,118 of leases receivable.

Receivables for the business-type activities are composed entirely of amounts due from taxpayers for delinquent taxes and related interest and collections fees.

The aggregate component unit receivables totaling \$49,378,145 are comprised of leases receivable (75.8 percent), special assessments receivable (14.9 percent), and due from other governments (9.3 percent).

Governmental funds report deferred revenue in connection with receivables that are not available to liquidate liabilities of the current period, and with resources that have been received, but not earned. At year-end, deferred revenue reported in the governmental funds, and the unearned revenue in the governmental activities based on the nature of the respective items, was comprised of the following:

| Property taxes receivable:                                    |                  |
|---|------------------|
| General fund  | \$<br>2,950,117  |
| Parks and recreation fund                                     | 10,359,842       |
| Nonmajor governmental funds                                   | 2,906,390        |
| Grant drawdowns prior to meeting all eligibility requirements | <br>355,959      |
|   | \$<br>16,572,308 |

### NOTES TO FINANCIAL STATEMENTS

### C. Capital Assets

**Primary Government** - Capital asset activity for the year ended December 31, 2006 was as follows:

**Construction Commitments** 

Total depreciation expense-governmental activities

The County has three active construction projects as of December 31, 2006. The Parks and Recreation department project is for border-to-border trail development. The commitments for the project are financed by Parks and Recreation revenues and reserves, along with state and federal grants. The Enhanced Emergency Communications System and Jail Construction and Improvements projects include costs for architecture and design services, and construction. The commitments for these projects are financed by general obligation bonds and reserves.

| Project                                       | Spent-to-Date | Remaining Commitment |
|---|---------------|----------------------|
| Border-to-Border Trail Recreation Development | \$ 1,663,856  | \$ 8,336,144         |
| Enhanced Emergency Communications System      | 183,585       | 23,802,419           |
| Jail Construction and Improvements            |               | 21,800,148           |
| Total   | \$ 1,847,441  | \$ 53,938,711        |

### NOTES TO FINANCIAL STATEMENTS

### NOTES TO FINANCIAL STATEMENTS

### D. Payables

Accounts payable and accrued liabilities in the governmental activities are as follows:

|  | \$<br>8,258,220 |
|--|-----------------|
| Intergovernmental                                    | <br>517,443     |
| Wages, fringe benefits and other accrued liabilities | 5,635,104       |
| Accounts   | \$<br>2,105,673 |

### E. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of December 31, 2006, is as follows:

| <b>Due to/from other funds</b>         | Receivable   | <b>Payable</b> |
|--|--------------|----------------|
| General Fund                           | \$ 551,801   | \$ 730,000     |
| County Capital Projects                | -            | 37,644         |
| Nonmajor governmental funds            | -            | 2,130          |
| Internal service funds                 | 2,484,774    | 2,266,801      |
| Total                                  | \$ 3,036,575 | \$ 3,036,575   |
| Advances to/from other funds           |              |                |
| General Fund                           | \$ 141,069   | \$ -           |
| Internal service funds                 |              | 141,069        |
| Total                                  | \$ 141,069   | \$ 141,069     |
| Interfund receivable/payable           |              |                |
| County Capital Projects                | \$ 3,067,073 | \$ -           |
| Community Support & Treatment Services | -            | 457,441        |
| Nonmajor governmental funds            |              | 2,609,632      |
| Total                                  | \$ 3,067,073 | \$ 3,067,073   |

The outstanding *due to/from* balances between funds result mainly from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments are made between funds. Outstanding advances between funds relate to working capital loans made to certain internal service funds, none of which is scheduled to be repaid in the subsequent year. Interfund receivables/payables represent short-term working capital loans for funds with negative cash balances in the County's cash and investment pool as of year end.

### NOTES TO FINANCIAL STATEMENTS

A summary of interfund transfers for the year ended December 31, 2006, is as follows:

| Interfund transfers                    | Transfer In  | <b>Transfer Out</b> |
|--|--------------|---------------------|
| General Fund                           | \$ 6,958,254 | \$22,332,075        |
| Community Support & Treatment Services | 1,280,906    | -                   |
| Revenue Sharing Reserve                | -            | 5,920,969           |
| County Capital Projects                | 18,829,469   | 15,288,372          |
| Nonmajor governmental funds            | 21,237,247   | 2,623,732           |
| Delinquent Tax Revolving               | -            | 2,759,887           |
| Internal service funds                 | 795,000      | 96,769              |
| Total per financial statements         | 49,100,876   | 49,021,804          |
| Adjustments for September 30 year end  | (79,072)     |                     |
| Total                                  | \$49,021,804 | \$49,021,804        |

Transfers are used to: (1) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; (2) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; and (3) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service funds as debt service payments become due.

Total transfers in for the primary government as shown in the accompanying financial statements were \$49,100,876 and total transfers out were \$49,021,804. The difference between these amounts, \$79,072, is attributable to transactions with the Public Health and Community Support & Treatment Services funds, which are reported on a September 30 year-end. As such, this is reported as an uneliminated internal balance in the statement of activities.

#### F. Leases

Capital Leases - The County acquired certain computer equipment under a capital lease. The original amount of the lease obligation and the gross value of the assets acquired was \$499,162. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. Capital leases outstanding at year-end amounted to \$309,424. The future minimum lease obligations and the net present value on these minimum lease payments as of December 31, 2006, were as follows:

| 2007                                    | \$ 167,796 |
|---|------------|
| 2008                                    | 153,813    |
| Total minimum lease payments            | 321,603    |
| Less amount representing interest       | 12,179     |
| Present value of minimum lease payments | \$309,424  |

### NOTES TO FINANCIAL STATEMENTS

**Operating Leases** - The County has commitments under operating lease agreements which provide for annual minimum lease payments as follows:

| 2007  | \$  | 760,930   |
|-------|-----|-----------|
| 2008  |     | 448,927   |
| 2009  |     | 381,832   |
| 2010  |     | 217,500   |
| 2011  |     | 225,000   |
| 2012  |     | 232,500   |
| 2013  |     | 240,000   |
| 2014  |     | 247,500   |
| 2015  |     | 255,000   |
| 2016  |     | 262,500   |
| Total | \$3 | 3,271,689 |

Rental expense for all operating leases aggregated \$723,274 for the year ended December 31, 2006. In addition, for the year ended December 31, 2006, the County leased 325 spaces for employee parking that cost \$327,240; this is not included above or in the aforementioned cost for the year since the County is reimbursed by the employees through payroll deductions.

**Lessor Leases** – The County has leased certain land to Huron Valley Ambulance, Inc. (HVA) under a capital lease agreement. HVA has commitments under the lease which provide for annual minimum lease payments of \$51,802 during 2006 and continuing for the next three years. At the end of the lease, the County is required to quit claim deed the land to HVA.

### G. Long-term Debt

### **Primary Government**

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for governmental activities. The original amount of general obligation bonds issued in prior years was \$79,660,000. The County issues general obligation notes to provide monies for the purchase of the delinquent taxes receivable from local units of government. The original amount of general obligation notes was \$12,000,000.

General obligation bonds and notes are direct obligations and pledge the full faith and credit of the government. Bonds are generally issued as 15 to 20-year serial bonds with varying amounts of principal maturing each year. Notes are generally issued with a six-month due maturity. General obligation bonds and notes currently outstanding are as follows:

### NOTES TO FINANCIAL STATEMENTS

| Purpose                             | <b>Interest Rates</b> | <b>Amount</b> |
|-------------------------------------|-----------------------|---------------|
| Governmental activities             | 2.0 - 5.5%            | \$ 32,980,000 |
| Governmental activities - refunding | 2.0 - 4.75%           | 23,420,000    |
| Business-type activities            | 7.130%                | 12,000,000    |
|                                     |                       | \$ 68,400,000 |

Annual debt service requirements to maturity for general obligation bonds and notes are as follows:

| Year Ending | Governmental Activities |                 | Business-type    | e Activities    |
|-------------|-------------------------|-----------------|------------------|-----------------|
| December 31 | <b>Principal</b>        | <u>Interest</u> | <b>Principal</b> | <u>Interest</u> |
| 2007        | \$ 4,205,000            | \$ 1,873,791    | \$ 12,000,000    | \$ 570,685      |
| 2008        | 4,325,000               | 1,890,828       | -                | -               |
| 2009        | 4,590,000               | 1,761,008       | -                | -               |
| 2010        | 4,885,000               | 1,617,784       | -                | -               |
| 2011        | 5,185,000               | 1,457,333       | -                | -               |
| 2012-2016   | 25,685,000              | 4,463,410       | -                | -               |
| 2017-2021   | 5,960,000               | 933,042         | -                | -               |
| 2022-2024   | 1,565,000               | 130,900         | <u> </u>         | _               |
| Total       | \$ 56,400,000           | \$ 14,188,096   | \$ 12,000,000    | \$ 570,685      |

In addition to general obligation bonds and notes, the County has an interest-free loan from the Michigan Economic Development Corporation in the original amount of \$292,133. The borrowed monies were used in conjunction with funds received under a federal Community Development Block Grant to fund renovation work in Hanger 1 at Willow Run Airport. The loan will be repaid in 60 quarterly installments of \$4,869 beginning in the first quarter of 2005 and ending in the fourth quarter of 2019. The total remaining amount outstanding at December 31, 2006 is \$253,182. Willow Run Airport Authority will be reimbursing the County for the debt service payments made by the County.

*Defeased debt*. In prior years, the County defeased certain bonds by placing the proceeds of the new bond issue in an irrevocable trust to provide for all future debt service payments on the old bond issue. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At December 31, 2006, the amount of bonds outstanding that are considered defeased is \$10,550,000; these bonds are scheduled to be redeemed on September 1, 2007.

### **Component Units**

**Department of Public Works Projects.** General obligation bonds are issued by the County to finance construction projects managed and administered by the Department of Public Works. General obligation bonds have been issued for governmental activities. The original amount of general obligation bonds issued in prior years was \$57,668,594.

### NOTES TO FINANCIAL STATEMENTS

These bonds are direct obligations, and pledge the full faith and credit, of the County and the associated municipalities and/or authorities. The bonds are issued as 10 to 20-year serial bonds with varying amounts of principal maturing each year through June 1, 2025 and bear interest at varying rates from 2.0% to 7.625%. General obligation bonds currently outstanding are summarized as follows:

| <u>Purpose</u>                      | <b>Interest Rates</b> | <b>Amount</b> |
|-------------------------------------|-----------------------|---------------|
| Governmental activities             | 2.25 - 7.625%         | \$ 31,742,279 |
| Governmental activities - refunding | 3.35 - 5.1%           | 5,710,000     |
|                                     |                       | \$ 37,452,279 |

Annual debt service requirements to maturity for general obligation bonds are as follows:

| Year Ending | <b>Governmental Activities</b> |                 |  |
|-------------|--------------------------------|-----------------|--|
| December 31 | <b>Principal</b>               | <u>Interest</u> |  |
| 2007        | \$ 3,145,000                   | \$ 1,593,099    |  |
| 2008        | 2,715,000                      | 1,480,356       |  |
| 2009        | 2,650,000                      | 1,368,420       |  |
| 2010        | 2,720,000                      | 1,250,667       |  |
| 2011        | 2,635,000                      | 1,137,352       |  |
| 2012-2016   | 13,345,000                     | 3,911,716       |  |
| 2017-2021   | 9,052,279                      | 1,242,981       |  |
| 2022-2025   | 1,190,000                      | 27,922          |  |
| Total       | \$ 37,452,279                  | \$ 12,012,513   |  |

**Drain Commissioner.** General obligation drain improvement bonds and notes are issued by the County to finance certain drainage district construction projects. General obligation bonds have been issued for governmental activities. The original amount of general obligation bonds and notes issued in prior years was \$9,115,000. During the year general obligation notes totaling \$3,607,446 were issued.

These bonds and notes are direct obligations, and pledge the full faith and credit of the County and the respective drainage districts. The bonds are generally issued as 10 to 20-year serial bonds with varying amounts of principal maturing each year. General obligation bonds and notes currently outstanding are as follows:

| <u>Purpose</u>          | <b>Interest Rates</b> | <b>Amount</b> |
|-------------------------|-----------------------|---------------|
| Governmental activities | 1.625 - 6.5%          | \$7,003,256   |

### NOTES TO FINANCIAL STATEMENTS

Annual debt service requirements to maturity for general obligation bonds and notes are as follows:

| Year Ending | Governmenta      | <b>Governmental Activities</b> |  |  |
|-------------|------------------|--------------------------------|--|--|
| December 31 | <b>Principal</b> | <u>Interest</u>                |  |  |
| 2007        | \$ 1,579,550     | \$ 265,669                     |  |  |
| 2008        | 740,910          | 198,581                        |  |  |
| 2009        | 722,100          | 161,968                        |  |  |
| 2010        | 604,350          | 134,045                        |  |  |
| 2011        | 457,150          | 113,196                        |  |  |
| 2012-2016   | 1,531,750        | 375,423                        |  |  |
| 2017-2021   | 877,446          | 182,087                        |  |  |
| 2022-2026   | 490,000          | 57,637                         |  |  |
| Total       | \$ 7,003,256     | \$ 1,488,606                   |  |  |

**Road Commission.** The Road Commission has a lease payable to the Washtenaw County Building Authority for the debt service costs related to bonds that were sold for the construction of Yard 2. The lease agreement terminates with the retirement of the bond issue in September 2013. The annual lease payment is equal to the related bond principal and interest. In addition, transportation fund notes were issued in accordance with the statutory requirements of Michigan Public Act 143 of 1943, as amended. The monies from these notes were used to fund improvements on county highways in Scio Township and Ypsilanti Township.

Following is a summary of debt currently outstanding:

| <u>Purpose</u>          | <u>Interest Rates</u> | <u>Amount</u> |
|-------------------------|-----------------------|---------------|
| Governmental activities | 3.75 - 7.0%           | \$ 4,845,000  |

Annual principal and interest maturities as of December 31, 2006 are as follows:

| Year Ending | Governmenta      | <b>Governmental Activities</b> |  |  |
|-------------|------------------|--------------------------------|--|--|
| December 31 | <b>Principal</b> | <u>Interest</u>                |  |  |
| 2007        | \$ 775,000       | \$ 174,877                     |  |  |
| 2008        | 770,000          | 148,732                        |  |  |
| 2009        | 780,000          | 121,714                        |  |  |
| 2010        | 675,000          | 93,438                         |  |  |
| 2011        | 695,000          | 69,288                         |  |  |
| 2012-2013   | 1,150,000        | 58,651                         |  |  |
| Total       | \$ 4,845,000     | \$ 666,700                     |  |  |

### NOTES TO FINANCIAL STATEMENTS

## **Changes in Long-Term Debt**

Long-term liability activity for the year ended December 31, 2006 was as follows:

|   | Beginning     |               | <b>5.1.</b> 4   | Ending        | Due Within          |
|---|---------------|---------------|-----------------|---------------|---------------------|
|   | Balance       | Additions     | Deductions      | Balance       | One Year            |
| Primary Government  |               |               |                 |               |                     |

### NOTES TO FINANCIAL STATEMENTS

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, \$338,515 of internal service funds compensated absences are included in the above amounts. Also, for the governmental activities, compensated absences are generally liquidated by the General Fund.

### IV. OTHER INFORMATION

### A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has established internal service funds to account for and finance its uninsured risks of loss. Under this program, the internal service funds provide coverage up to a maximum of \$250,000 for each general liability, police liability or property claim, with no loss fund. The internal service funds also provide coverage up to \$250,000 for any settlement, with all attorney fees being covered under the insurance policy for public officials and employee liability claims, up to \$375,000 for each worker's compensation claim, and up to \$250,000 for each professional liability claim. The County purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the County participate in the program and make payments to the internal service funds based on rates established to fund estimated actual liabilities. The total claims liability of \$2,139,000 reported in the funds at December 31, 2006, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, as amended, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The County has estimated its ultimate liability based upon estimates of known claims and actuarial based computations of incurred but not reported claims. The claims liability is presented at its net present value using an annual discount rate of 6%.

Changes in the funds' claims liability amount for the past two years were:

|                                 | <u>2006</u>  | <u>2005</u>  |
|---------------------------------|--------------|--------------|
| Balance at beginning of year    | \$ 2,273,000 | \$ 1,806,000 |
| Current year claims and changes |              |              |
| in estimates                    | 17,864,459   | 17,474,178   |
| Claims paid                     | (17,998,459) | (17,007,178) |
| Balance at end of year          | \$ 2,139,000 | \$ 2,273,000 |

### NOTES TO FINANCIAL STATEMENTS

Component units participate in the County's self-insurance program, except for the Road Commission, which purchases commercial insurance for health care claims and participates in the Michigan County Road Commission Self-Insurance Pool for claims relating to property loss, torts, and errors and omissions. The Michigan County Road Commission Self-Insurance Pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

### **B.** Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by grantor agencies cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

### C. Property Taxes

Prior to 2005, the County property taxes were levied annually on December 1 (the lien date) to fund operations of the following year. The property taxes were due in full within 90 days (prior to March 1), at which time uncollected taxes became delinquent.

In 2004, the State of Michigan passed Public Act 357. This Act provides a temporary funding mechanism as a substitute for state revenue sharing payments to counties. As a result of this new law, the County's levy date began a phased shifting (or acceleration) over a 3-year period from December 1 to July 1 of each year. In 2005, one-third of the tax levy took place on July 1 and two-thirds took place on December 1. In 2006, two-thirds of the tax levy took place on July 1 and one-third took place on December 1. In 2007 and each year thereafter, one-hundred percent of the tax levy will take place on July 1. The Act also requires that an amount equal to one-third of the December 2004 tax levy be placed each year for three years into the newly created Revenue Sharing Reserve Fund, a special revenue fund. An annual transfer, in an amount determined by the State of Michigan, is made from the Revenue Sharing Reserve Fund into the General Fund equal to the amount of revenue sharing the County used to receive from the State, adjusted for inflation.

For the year ended December 31, 2006, the County recognized the December 1, 2005 tax levy and the July 1, 2006 tax levy. As required, an amount equal to one-third of the December 2004 tax levy was placed in the Revenue Sharing Reserve Fund.

### NOTES TO FINANCIAL STATEMENTS

The assessed value of real and personal property is established by the local units, accepted by the County and equalized under State statute at approximately 50% of the current estimated market value. In March 1994, Michigan voters approved Proposal A, which limits annual increases in assessed values to the lesser of 5% or the rate of inflation with assessed value reverting to 50% of true cash value when the property is sold. Property taxes are levied based on the *taxable value* of the property (as defined under Proposal A). Taxable value is determined by using such factors as equalized value, assessed value, and capped value, along with a value change multiplier.

The taxable value of real and personal property for the December 1, 2005 levy was \$13.7 billion. The general operating tax rate for this levy was at the maximum rate of 4.5713 mills, as adjusted by the Headlee Amendment to the State of Michigan Constitution. The County also had a voter approved tax of 0.4744 mills for parks and recreation purposes and 0.2421 mills for purchase of selected natural areas in the County.

The taxable value of real and personal property for the July 1, 2006 levy was \$14.6 billion. The general operating tax rate for this levy was at the maximum rate of 4.5493 mills, as adjusted by the Headlee Amendment to the State of Michigan Constitution.

By agreement with various taxing authorities, the County purchases at face value the real property taxes returned delinquent each March 1 and records a corresponding delinquent taxes receivable. These receivables (\$9.3 million at December 31, 2006, not including accrued interest and collection fees) are pledged to a bank for payment of the notes payable and subsequent collection of the receivables, interest and collection fees thereon, and investment earnings are used to extinguish the debt.

### **D.** Joint Venture

In 1999, the County entered into an agreement with the University of Michigan (the "University") to form the *Washtenaw Community Health Organization (WCHO)* for the purpose of establishing an integrated health care delivery system to provide mental health, substance abuse, and primary and specialty health care to Medicaid, low income and indigent consumers as defined by the Michigan Mental Health Code and Medicaid eligibility guidelines.

WCHO is governed by a 12-member board; both the County and University appoint six members each. Under the agreement, WCHO replaced the County as the contractor for the mental health and substance abuse managed care contracts with the State of Michigan. This change was effective October 1, 2000, and currently provides the primary source of funding for WCHO.

### NOTES TO FINANCIAL STATEMENTS

The agreement also provides that the County and University will share equally in any gains or losses generated by WCHO, subject to certain limitations. However, because the agreement prohibits the distribution of any assets until WCHO is terminated and/or dissolved (and there are specific restrictions on the use of gains under the managed care contracts with the State of Michigan), WCHO is deemed to be a "joint venture with no equity interest." Accordingly, no amounts are reported in the accompanying financial statements for the County's equity in WCHO.

WCHO has a September 30 fiscal year end. Financial information may be obtained by writing to WCHO at P.O. Box 917, Ypsilanti, Michigan 48197.

### **E.** Jointly Governed Organizations

The Washtenaw Central Dispatch and Technology Authority (WCDTA) was originally established to provide centralized public safety dispatching for law enforcement, fire and emergency medical services to the Sheriff's Department, the Michigan State Police, Northfield Township Police, Huron Valley Ambulance, the townships of Ann Arbor, Augusta, Manchester, Northfield, Salem, Scio and Superior, and Dexter Area Fire Department. The organization is governed by a 12-member board. There was no financial activity for the Authority for the year ended December 31, 2006. Public safety dispatching services for the Sheriff's Department, Northfield Township Police and the Michigan State Police were provided by the County during 2006.

The County has no significant influence over the management of WCDTA. Therefore, WCDTA is not included in the County's financial report.

The *Washtenaw County 800 MHz Communications Consortium* (the Consortium) was formed to provide for the ownership, governance and management of a public safety/public service communications system that delivers reliable, interoperable wireless communications throughout Washtenaw County. The County and the cities of Ann Arbor, Saline, and Milan are charter members of the Consortium. The Consortium is governed by an executive board.

The County has no significant influence over the management of the Consortium. Financial accountability is limited to the extent of any appropriated operating grant. Therefore, the Consortium is not included in the County's financial report. Separate financial statements for the Consortium may be obtained by writing to the Washtenaw County Finance Department, 220 North Main Street, Ann Arbor, Michigan 48107 or by calling (734) 222-6750.

The *Washtenaw County HOME Consortium* (the Consortium) was formed pursuant to the Urban Cooperation Act (MCLA 124.501) for the purpose of cooperating with other local governments in housing assistance activities under the HOME program (Home Investment Partnership Program) and for the purpose of formulating and submitting a consolidated plan in order to receive a HOME program allocation from the U.S. Department of Housing and Urban Development (HUD).

### NOTES TO FINANCIAL STATEMENTS

The City of Ypsilanti and Washtenaw County are members of the Consortium. The County serves as lead entity for the Consortium. The County has been granted financial and fiscal authority and responsibility for all funds received. The County is the official recipient of the HOME program dollars from HUD. The HOME program is included in the audit of Washtenaw County.

Financial information may be obtained by writing to the Washtenaw County Finance Department, 220 North Main Street, Ann Arbor, Michigan 48107 or by calling (734) 222-6750.

The *Washtenaw Urban County* was created by a formal cooperation agreement between the County, City of Ypsilanti and the following townships: Ann Arbor, Bridgewater, Northfield, Pittsfield, Salem, Scio, Superior, York and Ypsilanti. The Urban County jurisdictions receive HOME (Home Investment Partnership Program) funds and CDBG (Community Development Block Grant) funds for use in those jurisdictions to address community development and housing needs. The chairperson of the Washtenaw County Board of Commissioners and the chief elected officials of the ten jurisdictions participating in the Urban County have joined together to form the Urban County Executive Committee. The Urban County Executive Committee serves as the decision-making body for those funds.

Financial information may be obtained by writing to the Washtenaw County Finance Department, 220 North Main Street, Ann Arbor, Michigan 48107 or by calling (734) 222-6750.

### F. Pension and Other Postemployment Benefits

The County provides pension and postemployment health care benefits to eligible employees through the following plans:

County administered:

Employees Retirement System (ERS)

Money Purchase Pension Plan (MPPP)

Voluntary Employees Beneficiary Association (VEBA)

Municipal Employees Retirement System of Michigan (MERS)

The County issues publicly available financial reports for ERS, MPPP and VEBA that include financial statements and required supplementary information, as applicable. These financial reports may be obtained by writing to Washtenaw County Finance Department, 220 North Main Street, Ann Arbor, Michigan 48107 or by calling (734) 222-6750. Information regarding the aforementioned plans is presented below.

### NOTES TO FINANCIAL STATEMENTS

### **County Administered Plans – Plan Descriptions, Funding Policies and Other Disclosures**

Employees Retirement System (ERS). The County has a single-employer defined benefit retirement plan which provides pension benefits to all full-time, regular employees hired prior to January 1, 1989. County Ordinances assign the authority to establish and amend benefit provisions and contribution requirements to the County Board of Commissioners, subject to the terms of collective bargaining agreements. Sheriff and non-Sheriff department Plan members are required to contribute 7% and 5%, respectively, of their annual compensation to the System for pension benefits. The County's contribution for the Sheriff and non-Sheriff department Plan members for the year ended December 31, 2006, represents 57.28% and 30.46%, respectively, of annual covered payroll.

The County's annual pension cost and net pension obligation for the current year are as follows:

| Annual required contribution / retirement benefit cost   | \$ 3,845,384 |
|--|--------------|
| Contributions made                                       | 3,845,384    |
| Increase (decrease) in net retirement benefit obligation | -            |
| Net retirement benefit obligation, beginning of year     |              |
| Net retirement benefit obligation, end of year           | \$ -         |

The annual required contribution for the current year was determined as part of the December 31, 2004, actuarial valuation using the aggregate cost actuarial funding method, which does not identify or separately amortize unfunded actuarial liabilities. The actuarial assumptions included: (a) a rate of return on investments of 7.75% per year compounded annually; (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation; (c) additional projected salary increases ranging from 0.0% to 7.4% per year, depending on age and service, attributable to seniority/merit; and (d) the assumptions that pension benefits will not increase after retirement and health insurance premiums will increase 5.0% per year. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the fair value of investments over a five-year period. The latest actuarial valuation was performed as of December 31, 2005.

### **Three-Year Trend Information**

| Annual       |   |   |  |
|--------------|---|---|--|
| Pension      | Percentage                                | Net   |  |
| Cost         | of APC                                    | Pension   |  |
| (APC)        | <b>Contributed</b>                        | <b>Obligation</b>   |  |
| \$ 2,451,764 | 100%                                      | \$  | -  |
| 2,700,525    | 100%                                      |   | -  |
| 3,845,384    | 100%                                      |   | -  |
|              | Pension Cost (APC) \$ 2,451,764 2,700,525 | Pension         Percentage           Cost         of APC           (APC)         Contributed           \$ 2,451,764         100%           2,700,525         100% | Pension         Percentage         Net           Cost         of APC         Pension           (APC)         Contributed         Obligation           \$ 2,451,764         100%         \$ |

GASB Statement 25 required supplementary information is presented after the notes to the financial statements section of this report.

### NOTES TO FINANCIAL STATEMENTS

Money Purchase Pension Plan (MPPP). The Washtenaw County Money Purchase Pension Plan (MPPP; the "Plan") is a defined contribution pension plan established and administered by Washtenaw County to provide benefits at retirement to all regular employees of the County hired on or after January 1, 1989 who work greater than 50% hours. Plan members are required to contribute 6% or 7.5% of covered salary depending on the particular collective bargaining unit. The County is required to match the plan member contributions. Plan provisions and contribution requirements are established and may be amended by the Washtenaw County Board of Commissioners, subject to the County's various collective bargaining agreements. The employer and employee contributions totaled approximately \$3.5 million and \$3.2 million, respectively, for the year ended December 31, 2006.

Voluntary Employees Beneficiary Association (VEBA). The Washtenaw County Voluntary Employees Beneficiary Association (VEBA; the "Plan") is a single-employer defined benefit post-employment healthcare plan established by Washtenaw County to provide medical and healthcare benefits for retirees and their beneficiaries. Eligible participants include any retirees who receive pension benefits under one of the County's pension plans. Plan provisions are established and may be amended by the Washtenaw County Board of Commissioners, subject to the County's various collective bargaining agreements. The Plan is funded by a trust agreement established pursuant to Section 501(c)(9) of the Internal Revenue Code which allows for the formation of a VEBA.

Subject to certain age and length of service requirements, eligible participants receive the same or comparable medical insurance coverage under the Plan as was in effect at the time of their employment. At such time that participants become Medicare eligible, the benefits under the Plan change to Medicare Supplemental coverage.

Employer contributions to fund the Plan are currently on a pay-as-you-go basis with additional contributions intended to build the fund for purposes of paying future benefits. Employer contributions for the year ended December 31, 2006 are \$7,855,525. Although an actuarial valuation of the Plan was completed during 2006, the County has determined that it will establish an annual employer contribution rate using the actuarial valuation as a reference, but not as a definitive requirement. Employees are not required to contribute to the Plan.

As of December 31, 2006, 629 members received healthcare benefits under the Plan, and the cost of those benefits amounted to \$4,600,201.

As required, the VEBA adopted GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as of and for the year ended December 31, 2006. Required disclosures under this new standard are presented in the separate report issued by the VEBA. The County will be required to adopt GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, for the year ended December 31, 2007.

A publicly available financial report that includes financial statements and required supplementary information for the VEBA may be obtained by writing to the Washtenaw County Human Resources Department, 220 North Main Street, Ann Arbor, Michigan 48107 or by calling (734) 222-6800.

### NOTES TO FINANCIAL STATEMENTS

### **County Administered Plans – Summary of Significant Accounting Policies**

The financial statements of ERS, MPPP and VEBA are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

### **Municipal Employees Retirement System of Michigan**

The County participates in the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer defined benefit pension plan providing retirement, death and disability benefits for certain full-time Washtenaw County Sheriff Department employees. The System is administered by the MERS Retirement Board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917 or by calling (800) 767-6377.

The County is required to contribute at an actuarially determined rate; the current rate is 6.91% of annual covered payroll. Participating employees are required to contribute 5.0% of their annual covered payroll. The contribution requirements of the County are established and may be amended by the MERS Retirement Board. The contribution requirements of plan members are established and may be amended by the County, subject to collective bargaining agreements and depending on the MERS contribution program adopted by the County.

For the year ended December 31, 2006, the County's annual pension cost of \$1,187,154 for MERS was equal to the County's required and actual contributions. The required contribution was determined as part of the December 31, 2004 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included: (a) a rate of return on the investment of present and future assets of 8.0%; (b) projected salary increases of 4.5% per year compounded annually, attributable to inflation; and (c) additional projected salary increases of 0.0% to 8.4% per year, depending on age, attributable to seniority/merit. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return and includes an adjustment to reflect fair value. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2005, the date of the latest actuarial valuation, was 30 years.

### **Component Unit**

The Road Commission participates in MERS, an agent multiple-employer defined benefit pension plan that covers nearly all employees of the Road Commission. The Road Commission's MERS plan is separate from that of the County's. The system provides retirement, disability and death benefits to plan members and their beneficiaries. MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the system at 1134 Municipal Way, Lansing, Michigan 48917.

### NOTES TO FINANCIAL STATEMENTS

The obligation to contribute to and maintain the system for these employees was established by resolution of the Road Commission Board.

For the year ended December 31, 2006, the Road Commission's annual pension cost of \$928,690 for the plan was equal to the Road Commission's required and actual contribution. The annual required contribution was determined as part of an actuarial valuation at December 31, 2005, using the entry age normal cost method. Significant actuarial assumptions used include: (a) an 8.0% investment rate of return; (b) projected salary increases of 4.5% to 12.9% per year, which include an inflation component of 4.5%; and (c) no post retirement benefit increases. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four-year period. The unfunded actuarial liability is being amortized as a level percentage of payroll on a closed basis. The amortization period is 30 years. Employees are required to contribute 5.0% of their annual covered payroll.

### NOTES TO FINANCIAL STATEMENTS

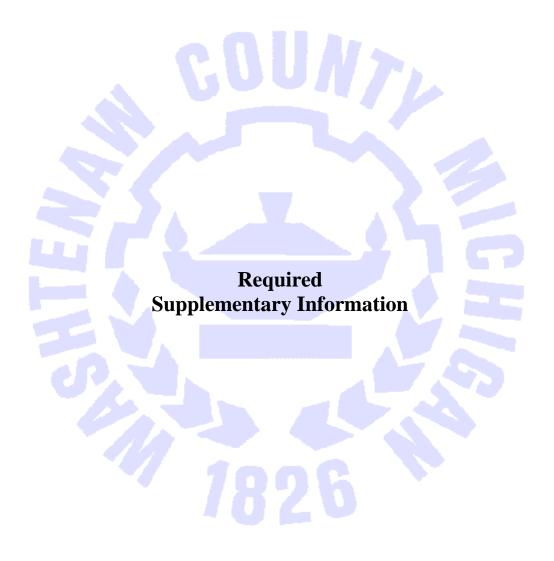

### G. Restatements

The beginning fund balance of the General Fund was decreased by \$255,423 to correct for prior year revenue recognition errors. Also, the beginning net assets of the governmental activities was increased by a net amount of \$1,717,995; this included the above General Fund decrease and an increase of \$1,973,418 to correct for an error in the calculation of depreciation on building and other improvements.

### **H.** Subsequent Event

In February 2007, the County issued \$21,675,000 of general obligation limited tax bonds in order to expand and upgrade its corrections facility.

For purposes of the Schedule of Funding Progress, the actuarial accrued liability values as shown are determined using the entry age actuarial cost method. However, the System uses the aggregate cost actuarial funding method, which does not identify or separately amortize unfunded actuarial liabilities.

#### Notes to Schedule of Expenditures of Federal Awards

#### 1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Washtenaw County, Michigan (the "County") and is presented on the accrual basis of accounting.

The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### 2. SUBRECIPIENTS

Of the federal expenditures presented in the schedule, Washtenaw County, Michigan provided federal awards to subrecipients as follows:

| Program Title   | Federal CFDA Amount Provide to Subrecipien |    |           |
|---|--|----|-----------|
|   |  |    |           |
| Women, Infants and Children                                       | 10.557                                     | \$ | 128,001   |

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 15, 2007

To the Board of Commissioners of Washtenaw County Ann Arbor, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of WASHTENAW COUNTY, MICHIGAN, as of and for the year ended December 31, 2006, and have issued our report thereon dated March 15, 2007. We did not audit the financial statements of the Employment Training and Community Services Fund, which represent 4.2% of the assets and 18.9% of the revenues of the aggregate remaining fund information and 0.2% of the assets and 4.2% of the revenues of the governmental activities. Also, we did not audit the financial statements of the Washtenaw County Road Commission, which represents 71.3% of the assets and 84.1% of the revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports were furnished to us, and our opinions, insofar as they relate to the amounts included for the Employment Training and Community Services Fund and Washtenaw County Road Commission, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Washtenaw County, Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the County's financial statements that is more than inconsequential will not be prevented or detected by the County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be presented or detected by the County's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether *Washtenaw County*, *Michigan's* financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests and the reports of the other auditors disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Washtenaw County in a separate letter dated March 15, 2007.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Lohan

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

March 15, 2007

To the Board of Commissioners of Washtenaw County Ann Arbor, Michigan

#### **Compliance**

We have audited the compliance of *Washtenaw County, Michigan* with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2006. *Washtenaw County, Michigan's* major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of *Washtenaw County, Michigan's* management. Our responsibility is to express an opinion on *Washtenaw County, Michigan's* compliance based on our audit.

Washtenaw County, Michigan's financial statements include the operations of the Employment Training and Community Services Fund, a special revenue fund of the County, which received \$6,899,333 in federal awards, which is not included in the accompanying schedule of expenditures of federal awards for the year ended December 31, 2006. Our audit, as described below, did not include the operations of the Employment Training and Community Services Fund because it was audited by other auditors in accordance with OMB Circular A-133.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about *Washtenaw County, Michigan's* compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on *Washtenaw County, Michigan's* compliance with those requirements.

In our opinion, *Washtenaw County, Michigan* complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2006.

#### **Internal Control Over Compliance**

The management of *Washtenaw County, Michigan* is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered *Washtenaw County, Michigan's* internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that noncompliance with applicable requirements of laws, regulations, contracts and grant agreements caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our report and the report of other auditors noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

#### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of *Washtenaw County*, *Michigan* as of and for the year ended December 31, 2006, and have issued our report thereon dated March 15, 2007. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise *Washtenaw County*, *Michigan's* basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

We did not audit the financial statements of the Employment Training and Community Services Fund, which represent 4.2% of the assets and 18.9% of the revenues of the aggregate remaining fund information and 0.2% of the assets and 4.2% of the revenues of the governmental activities. Also, we did not audit the financial statements of the Washtenaw County Road Commission, which represents 71.3% of the assets and 84.10% of the revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports were furnished to us, and our opinion, insofar as it relates to the amounts included for the Employment Training and Community Services Fund and Washtenaw County Road Commission, is based solely on the reports of the other auditors.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SECTION IV – PRIOR YEAR FEDERAL AWARD FINDINGS

No matters were reported.

\* \* \* \* \* \*

March 15, 2007

To the Board of Commissioners Washtenaw County

We have audited the basic financial statements of *Washtenaw County* as of and for the year ended December 31, 2006, and have issued our report thereon dated March 15, 2007. We did not audit the financial statements of the Employment Training and Community Services Fund, a special revenue fund of the County, nor the financial statements of the Washtenaw County Road Commission, a discretely presented component unit. Those financial statements were audited by other auditors whose reports were furnished to us.

Professional standards require that we provide you with the following information related to our audit.

#### Our Responsibility Under Generally Accepted Auditing Standards and OMB Circular A-133

As stated in our engagement letter dated November 21, 2006, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and fairly presented in accordance with accounting principles generally accepted in the United States of America. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

In planning and performing our audit, we considered Washtenaw County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

As part of obtaining reasonable assurance about whether Washtenaw County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also, in accordance with OMB Circular A-133, we examined, on a test basis, evidence about Washtenaw County's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* applicable to each of its major federal programs for the purpose of expressing an opinion on Washtenaw County's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on Washtenaw County's compliance with those requirements.

#### **Significant Accounting Policies**

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by Washtenaw County are described in Note I to the basic financial statements.

For 2006, the County adopted Statements of Governmental Accounting Standards (GASB Statements) No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The effect of implementing this new standard did not result in the restatement of beginning net assets/fund balances; the primary impact was on financial statement disclosures in the separate report for the Voluntary Employee Beneficiary Association (VEBA) and certain limited new disclosures in the County's comprehensive annual financial report.

We noted no transactions entered into by Washtenaw County during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

#### **Accounting Estimates**

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the liability for uninsured risks of loss, including incurred but not reported claims, which are accounted for in certain of the County's internal service funds and for which the County utilizes the services of an independent third-party risk management consultant to estimate the liability. We relied upon the work of the third-party expert in determining that the liability is reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the collectability of accounts receivable from third party payers for health and mental health services rendered by the County. We evaluated the key factors and assumptions used to develop the allowances for uncollectable accounts in determining that they are reasonable in relation to the basic financial statements taken as a whole.
- Management's estimate of the original cost and accumulated depreciation of infrastructure capital assets for the Drain Commissioner is based on data derived from certain prior year audit reports. We evaluated the key factors/assumptions used to develop the original cost and accumulated depreciation of the infrastructure capital assets in determining that they are reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the useful lives of depreciable fixed assets is based on the length of time it is believed that those assets will provide some economic benefit in the future. We evaluated the key factors and assumptions used to develop the useful lives of those assets in determining that they are reasonable in relation to the financial statements taken as a whole.

#### Audit Adjustments - None

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the County's financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or not by the County, either individually or in the aggregate, indicate matters that could have a significant effect on the County's financial reporting process.

#### **Disagreements with Management - None**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### **Consultations with Other Independent Accountants - None**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### **Issues Discussed Prior to Retention of Independent Auditors**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Washtenaw County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### <u>Difficulties Encountered in Performing the Audit - None</u>

We encountered no difficulties in dealing with management in performing our audit.

This letter and the accompanying memorandum are intended for the use of the Board of Commissioners and management of Washtenaw County, the State of Michigan, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

Very truly yours,

Rehmann Loham

#### **Comments and Recommendations**

#### For the Year Ended December 31, 2006

In planning and performing our audit of the financial statements of Washtenaw County as of and for the year ended December 31, 2006, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be significant deficiencies or material weaknesses, as defined above.

Other matters that we noted, including control deficiencies, are described below.

#### **Post-Year End Budget Amendments**

Condition. The County made several amendments to its general and special revenue fund budgets after December 31, 2006.

*Criteria*. The Michigan Department of Treasury, through the Michigan Uniform Budget Manual, interprets the Budget Act to provide that a local government does not have authority to amend its budget after its fiscal year has ended.

*Cause.* County management and staff made the post year end amendments in the belief that they were necessary in order to comply with State regulations that do not allow for over expenditure of budgets.

*Effect*. The year end financial statements present budgetary compliance information using budget amendments recorded after year end.

*Recommendation.* For 2007 and thereafter, County budgets should only be amended during the fiscal year. No budget amendments should be made after fiscal year end.

#### **Comments and Recommendations (Continued)**

#### For the Year Ended December 31, 2006

County Response. The County monitors the budget on a monthly basis to identify potential revenue and expenditure variances as early in the fiscal year as possible, with quarterly reporting of the budget status to the Board of Commissioners. In the future, the County will provide a budget amendment for Board of Commissioner consideration throughout the fiscal year as issues materialize and in accordance with County policy. In most instances, this will limit the necessity for any year end budget adjustments. However, the County may adjust the budget following year end in accordance with the law if year end is "as soon as it becomes apparent that a deviation from the original general appropriations act is necessary and the amount of the deviation can be determined."

#### **Recording Market Value Adjustments on Investments**

*Condition*. This year, for the first time, the County spread the market value adjustment on investments in the Treasurer's pool to each fund that regularly receives an interest allocation. Previously, the <u>year-end</u> only entry was posted to a single fund.

*Criteria.* Although GASB Statement 31 does not specify the frequency at which the general ledger should be adjusted for investment market values, GFOA recommended practices and good business sense suggest that quarterly or monthly adjustment to market value is appropriate.

Cause. The Treasurer's Office has taken the position that because investments (such as commercial paper, U.S. treasuries and U.S. agencies) will be held to maturity, there is no need to record market value adjustments at any time other than year end and only then just to comply with generally accepted accounting principles.

*Effect*. Investment earnings, which include interest as well as realized and unrealized gains, will not be appropriately distributed between the funds if only recorded on an annual basis using the relative cash and investment pool balances at that date.

*Recommendation.* The market value adjustment should be computed monthly and along with interest earnings should be allocated monthly in an automated manner to all County funds earning interest.

County Response. The County Treasurer agrees that the market value adjustment for unrealized gains and losses on investments in the Treasurer's pooled cash could be allocated to each fund rather than posted to a single fund as originally established by the external auditors. The Treasurer also agrees that, while the provisions of GASB Statement 31 are effective for financial statements, it does not specify a required frequency at which the general ledger should be adjusted for investment market values. The external auditor has recommended that the market value adjustment should be computed monthly and allocated monthly to all funds. The Treasurer, with the assistance of the County Finance Department, will implement the recommendation in 2007 provided it is administratively efficient.

#### **Comments and Recommendations (Continued)**

#### For the Year Ended December 31, 2006

#### **Insurance Revolving Fund**

*Condition.* During 2006, over \$600,000 for attorney fees related to the township policing contracts litigation was paid from the Insurance Revolving Fund.

*Criteria.* From a prudent person perspective, it is not clear whether this matter is a loss claim covered by insurance (both the self-insured retention component and the reinsurance/excess insurance purchased from commercial carriers.).

*Cause.* The County has not clearly defined the insurance coverage provided by this fund and appears to be using the fund's resources to cover any legal related bill.

*Effect.* Because federal programs are or may be charged for participation in the Insurance Revolving Fund, the use of fund resources for costs that are not clearly covered by the insurance increases the potential that an auditor or monitor would question or disallow grant costs.

*Recommendation.* The County should clearly define the nature and extent of coverage provided by the Insurance Revolving Fund.

*County Response.* We have developed a new policy outlining what legal costs should be charged to the Insurance Revolving Fund (those pertaining to insurance related claims) and what legal costs should be charged to another fund, such as the General Fund. We will implement this for 2007.

#### **Creating New Vendors/Addresses in Accounting System**

Condition. Currently, any County employee with access to an ID number (which are easy to obtain from the accounting software) can process a request for a new vendor/address to be added to the accounting system. Once a phantom vendor is created or added, fraudulent accounts payable transactions (below the \$500 threshold for a contract or purchase order) could be initiated and processed and not detected by the County's internal control.

*Criteria*. Effective internal control over cash disbursements requires tight control over the ability to add new vendors/addresses to the payment processing system.

Cause. To accommodate a user-friendly, time-efficient process to add vendors (and quickly pay bills), the County set up an *e-procedure* that does not require departmental approval, such as what is used for timesheets or journal entries. Also, *below the threshold* payments are being processed without two signoffs on the accounts payable supporting documents.

Effect. Payments in amounts that are not material to the financial statements, but which would be considered consequential to the County, could be processed and not detected.

#### **Comments and Recommendations (Concluded)**

#### For the Year Ended December 31, 2006

*Recommendation*. The County should review this situation and determine an appropriate correction to the procedure to add new vendors/addresses to the accounting system. Also, the same should be done for the review and approval process related to disbursements under \$500.

County Response. We are working with Information Technology to enable the on-line vendor addition form to be automatically routed to the requester's supervisor for approval before it is submitted to Payables (similar to how payroll time entry is currently processed). We have also met with department payables liaisons and have informed them that we will now require two people's signoff on payables supporting documentation before an invoice will be paid.

#### **Court Services Bank Reconciliations**

Condition. By year end, Court Services had fully reconciled its two bank accounts. During the year, bank reconciliations were prepared monthly but all reconciling items were not properly identified on a timely basis.

*Criteria.* The State audit procedures report form instructions provide guidance that timely bank reconciliations mean that they are completed within six weeks from the end of a particular month.

Cause. Unknown.

*Effect.* Cash errors, intentional or otherwise, cannot be detected on a timely basis if bank reconciliations are not regularly completed on a timely basis.

*Recommendation.* All monthly bank reconciliations should be completed within six weeks following month end (or the date of the bank statement if other than month end).

*County Response.* These two bank accounts are now being reconciled within six weeks after each month end, including identifying all reconciling items.

This report is solely for the information and use of management, the Board of Commissioners, others within the organization, federal awarding agencies and grant pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
